Lorchestre Noir F Laurent:

Neofascism in Europe (1945-1989) Matteo Albanese, 2022-09-30 The text represents a long journey in the debate that characterized the multifaceted political phenomenon of neofascism From the end of the Second World War until the fall of the communist regimes groups parties and individuals have given life to a network of action and thought that has developed above all around three major themes that have characterized the thought of historical fascism and that we can find at different latitudes during the course of the long period of time under consideration Racism contempt for equality and democracy and an issue linked to the state as an element of modernity these are the three levels of analysis around which the neofascist movement regroups debates and acts The meticulous reconstruction of that debate at a transnational level is the result of a long archival work with unpublished and illuminating papers on the issue of continuity between political cultures The text can be easily read by students of Humanities and Social Sciences courses but it is also pleasant for fans of the subject

A History of Fascism, 1914-1945 Stanley G. Payne, 1996-01-01 A History of Fascism is an invaluable sourcebook offering a rare combination of detailed information and thoughtful analysis It is a masterpiece of comparative history for the comparisons enhance our understanding of each part of the whole The term fascist used so freely these days as a pejorative epithet that has nearly lost its meaning is precisely defined carefully applied and skillfully explained The analysis effectively restores the dimension of evil Susan Zuccotti The Nation A magisterial wholly accessible engaging study Payne defines fascism as a form of ultranationalism espousing a myth of national rebirth and marked by extreme elitism mobilization of the masses exaltation of hierarchy and subordination oppression of women and an embrace of violence and war as virtues Publishers Weekly

Great Heroic Coup Henrik Krüger, Jerry Meldon, Peter Dale Scott, 2015-12-31 In this new edition of a cult classic Henrik

Kr ger and Jerry Meldon have added new material and provided updates of the investigations Danish investigative author Henrik Kr ger set out to write a book about Christian David a French criminal with a colorful past and wound up writing a book originally published in 1980 that spans all continents and names names all the way up to Richard Nixon The Nixon administration and CIA wanted to eliminate the old French Connection and replace it with heroin from the Golden Triangle partly in order to help finance operations in Southeast Asia The book delves into the relationships between French and U S intelligence services and organized crime probing into the netherworld of narcotics espionage and international terrorism It uncovers the alliances between the Mafia right wing extremists neo fascist OAS and SAC veterans in France and Miami based Cuban exiles It lifts the veil on the global networks of parafascist terrorists who so frequently plot and murder with impunity thanks to their relationships and services to the intelligence agencies of the so called free world In short this updated edition tells a story which our own media have systematically failed to tell *Transnational Fascism in the Twentieth Century* Matteo Albanese, Pablo del Hierro, 2016-09-22 Developing a knowledge of the Spanish Italian connection between right wing extremist groups is crucial to any detailed understanding of the history of fascism Transnational Fascism in the Twentieth Century allows us to consider the global fascist network that built up over the course of the 20th century by exploring one of the significant links that existed within that network It distinguishes and analyses the relationship between the fascists of Spain and Italy at three interrelated levels that of the individual political organisations and the state whilst examining the world relations and contacts of both fascist factions from Buenos Aires to Washington and Berlin to Montevideo in what is a genuinely transnational history of the fascist movement Incorporating research carried out in archives around the world this book delivers key insights to further the historical study of right wing political violence in modern Europe *Foreign Fighters and the Extreme Right* Daniel Koehler, Miroslav Mareš, 2025-10-29 Foreign Fighters and the Extreme Right is the first comprehensive academic study taking an in depth look at white supremacists neo Nazis and other right wing extremists leaving their home countries to join armed groups fighting in civil wars and other armed conflicts The phenomenon known as Foreign Fighters has so far mainly been looked at in the context of Jihadist groups like ISIS recruiting fighters from all over the world for the Syrian and Iraqi conflicts Widely unnoticed the war ongoing in Ukraine has also resulted in a stream of foreign recruits but with a totally different ideology Right wing extremists from many countries have travelled to Ukraine in order to take part in the armed conflict against Russia Many have already returned to their countries of origin mostly unnoticed and unhindered by law enforcement agencies Looking more carefully one also can see a much longer history of right wing extremist foreign fighting in various conflicts for example the Yugoslavian war the Algerian conflict and in South America in the aftermath of the Vietnam war Bringing together world leading experts on right wing extremism and terrorism this collection of extreme right wing foreign fighting case studies since the end of the Second World War sheds light on a topic with significant importance which has yet remained mostly in the dark This book will be of interest

to all those with an interest in small wars terrorism peace and conflict studies and right wing extremism **Political Terrorism** A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against **Katanga 1960-63** Christopher Othen, 2015-09-07 In King Leopold II's infamous Congo Free State at the turn of the century severed hands became a form of currency But the Belgians didn't seem to have a sense of historical shame as they connived for an independent Katanga state in 1960 to protect Belgian mining interests What happened next was extraordinary It was an extremely uneven battle The UN fielded soldiers from twenty nations America paid the bills and the Soviets intrigued behind the scenes Yet to everyone's surprise the new nation's rag tag army of local gendarmes jungle tribesmen and controversially European mercenaries refused to give in For two and a half years Katanga the scrawniest underdog ever to fight a war held off the world with guerrilla warfare two faced diplomacy and some shady financial backing It even looked as if the Katangese might win Katanga 1960 tells for the first time the full story of the Congolese province that declared independence and found itself at war with the world The Holocaust Denial Gill Seidel, 1986 Describes the events of the Holocaust and present day Holocaust denial as part of the continuing history of antisemitism Analyzes manifestations of Holocaust denial and neo Nazism in Great Britain France West Germany and the USA giving details of specific persons and organizations and their international links e.g. Arthur Butz William Grimstad Lenni Brenner Robert Faurisson David Irving GRECE the Institute for Historical Review also discusses anti Zionism as a form of antisemitism *Social Movements and Protest in France* Philip G. Cerny, 1982 The Darkest Sides of Politics, I Jeffrey M. Bale, 2017-09-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they

may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics

Ensayo histórico sobre la violencia política Francesco Benigno, 2023-04-20 Generalmente se entiende por terrorismo la voluntad deliberada de sembrar el terror golpeando a la población desarmada considerada enemiga Sin embargo Francesco Benigno cuestiona este enfoque La finalidad del gesto terrorista es perfilar a través de una imagen polarizada en el eje nosotros ellos el escenario de una guerra definida en términos absolutos como el choque entre el bien y el mal El autor de este libro da cuerpo y sustancia de manera brillante a esta tesis historiográfica conduciendo al lector por pocas muy diferentes del Terror de la Revolución Francesa a las bombas anarquistas del populismo ruso a la Guerra Fría de los años del plomo en Italia a los atentados del 11 de septiembre

Neofascisti italiani in America Latina (1977-1982)* Vito Ruggiero, 2023-09-22 A partire da una corposa documentazione proveniente da Cile Argentina Paraguay Stati Uniti e Italia questo volume si propone di far luce sulle relazioni intercorse tra le ultime dittature militari latinoamericane e i militanti di Ordine Nuovo e Avanguardia Nazionale principali sigle del neofascismo italiano nonché maggiori responsabili della strategia della tensione Dal 1977 in poi molti neofascisti provenienti delle due organizzazioni si diressero in America Latina dove nel corso degli anni poterono contare sulla protezione di Cile Argentina Bolivia e Paraguay Attraverso un'analisi complessiva questo volume tenta di dimostrare come non sia possibile considerare la migrazione neofascista italiana nel subcontinente come un fenomeno unico e lineare a causa delle marcate differenze riscontrabili nei rapporti con ogni singola giunta militare Al tempo stesso l'analisi sottolinea la profonda influenza che le dinamiche emisferiche ebbero sulle traiettorie seguite dai neofascisti i cui rapporti con le singole dittature furono sempre subordinati agli interessi nazionali dei regimi che di volta in volta costituivano il loro punto di riferimento istituzionale Infine sulla base dei dati raccolti il volume si interroga sull'effettivo livello di coesione del mondo dell'anticomunismo militante e radicale che durante la seconda metà degli anni Settanta appare frastagliato e conflittuale DOI 10.13134/9791259772374 *Revolutionary State-Making in Dar es Salaam* George

Roberts, 2022-12-22 Tracing Dar es Salaam's rise and fall as an epicentre of Third World revolution George Roberts explores the connections between the global Cold War African liberation struggles and Tanzania's efforts to build a socialist state Roberts introduces a vibrant cast of politicians guerrilla leaders diplomats journalists and intellectuals whose trajectories collided in the city In its cosmopolitan and rumour-filled hotel bars embassy receptions and newspaper offices they grappled

with challenges of remaking a world after empire Yet Dar es Salaam's role on the frontline of the African revolution and its provocative stance towards global geopolitics came at considerable cost Roberts explains how Tanzania's strident anti imperialism ultimately drove an authoritarian turn in its socialist project and tighter control over the city's public sphere This title is also available as Open Access on Cambridge Core **Transhumanism** David Livingstone, 2015-09-02

Transhumanism is a recent movement that extols man's right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential While the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 A Space Odyssey Blade Runner the Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA's mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill *National Union Catalog*, 1979 Includes entries for maps and atlases *Storia di ordine nuovo* Aldo Giannuli, Elia Rosati, 2017-10-10T00:00:00+02:00 Organizzazione extraparlamentare di estrema destra gruppo terroristico movimento clandestino Il giornalista e storico Aldo Giannuli profondo conoscitore dei retroscena legati alla cosiddetta eversione nera ripercorre nel dettaglio cosa stato Ordine Nuovo e quale importante ruolo ha ricoperto nella strategia della tensione attuata da alcune frange dello Stato e dei Servizi Segreti italiani durante gli anni Settanta I treni le manifestazioni sindacali gli edifici pubblici affollati di gente L eversione neofascista ha marchiato la storia del nostro paese utilizzando la strage come strumento per seminare terrore e instabilit politica Eppure ancora oggi non conosciamo tutta la verit su alcuni terribili fatti di sangue come quelli di piazza Fontana e piazza della Loggia Attraverso una precisa ricostruzione di vicende e personaggi Giannuli riporta l'attenzione sulle fasi che hanno scandito l'attivit dell'ascia bipenne dalla sua nascita fino ad arrivare al 1974 anno successivo al decreto di scioglimento promosso dal ministro Taviani Una storia parallela alle cronache ufficiali che riaccende i riflettori su un
