**Readicide** Kelly Gallagher, 2023-10-10 Read i cide The systematic killing of the love of reading often exacerbated by the inane mind numbing practices found in schools Reading is dying in our schools Educators are familiar with many of the factors that have contributed to the decline poverty second language issues and the ever expanding choices of electronic entertainment In this provocative book Readicide How Schools are Killing Reading and What You Can Do About It author and teacher Kelly Gallagher suggests it is time to recognize a new and significant contributor to the death of reading our schools Readicide Gallagher argues that American schools are actively though unwittingly furthering the decline of reading Specifically he contends that the standard instructional practices used in most schools are killing reading by Valuing standardized testing over the development of lifelong readers Mandating breadth over depth in instruction Requiring students to read difficult texts without proper instructional support and insisting students focus on academic texts Ignoring the importance of developing recreational reading Losing sight of authentic instruction in the looming shadow of political pressures Readicide provides teachers literacy coaches and administrators with specific steps to reverse the downward spiral in reading steps that will help prevent the loss of another generation of readers **Horror Literature and Dark Fantasy**

Mark A. Fabrizio, 2018-05-16 Horror Literature and Dark Fantasy Challenging Genres is a collection of scholarly essays intended to address the parent whose unreasoning opposition to horror entails its removal from a school curriculum the school administrator who sees little or no redeeming literary value in horror and the teacher who wants to use horror to teach critical literacy skills but does not know how to do so effectively The essays herein are intended to offer opportunities for teachers in secondary schools and higher education to enrich their classes through a non canonical approach to literary study This book is a deliberate attempt to enlarge the conversation surrounding works of horror and argue for their inclusion into school curricula to teach students critical literacy skills Gentle Reads Deanna J. by the American Comparative Literature Association Winner 2021 Barbara Perkins and George Perkins Award given by the International Society for the Study of Narrative Honorable Mention 2020 James Russell Lowell Prize given by the Modern Language Association Argues that the slave narrative is a new world literary genre In Runaway Genres Yogita Goyal tracks

the emergence of slavery as the defining template through which current forms of human rights abuses are understood The post black satire of Paul Beatty and Mat Johnson modern slave narratives from Sudan to Sierra Leone and the new Afropolitan diaspora of writers like Teju Cole and Chimamanda Ngozi Adichie all are woven into Goyal s argument for the slave narrative as a new world literary genre exploring the full complexity of this new ethical globalism From the humanitarian spectacles of Kony 2012 and BringBackOurGirls through gothic literature Runaway Genres unravels for instance how and why the African child soldier has now appeared as the afterlife of the Atlantic slave Goyal argues that in order to fathom forms of freedom and bondage today from unlawful detention to sex trafficking to the refugee crisis to genocide we must turn to contemporary literature which reveals how the literary forms used to tell these stories derive from the antebellum genre of the slave narrative Exploring the ethics and aesthetics of globalism the book presents alternative conceptions of human rights showing that the revival and proliferation of slave narratives offers not just an occasion to revisit the Atlantic past but also for re narrating the global present In reassessing these legacies and their ongoing relation to race and the human Runaway Genres creates a new map with which to navigate contemporary black diaspora literature

**In the Gardens of God** Stephan Attia,2012-09-01 In the Gardens of God is a unique collection of poetry which symbolizes the return of the poet to the source of all creation Despite the harsh influences of the physical reality the poet excels owing to his devotion to the love of life Furthermore the poet managed to overcome temptation owing to the gift of poetry His realization of the truth was the ray of the new dawn for mankind This collection is a mirror of the ordeal in which the poet was pressed down to the extreme point of madness He had to choose between the world of man and the world of God A choice which was bound to either lead the poet to self destruction or to lead posterity to salvation Freedom of the human spirit or the demise it occupied the poet s inner world To conform to the world of man would mean spiritual death whereas to return to God would mean an everlasting life for the human spirit
