relevant knowledge was extracted from the present literature and put into a coherent narrative The findings indicate that Jewish and Christian scriptures particularly the passages about Abraham Sarah Hagar Isaac and Ishmael and contents concerning eschatology make anti Islamic interpretations possible Jewish anti Islamic antagonism is observed to primarily stem from the ethno centric self perception and eschatological agenda of Judaism whereas Christian anti Islamic antagonism from the ontological instability and eschatological scenarios of Christianity In the subsequent chapter the research examines the secular antagonism towards Islam and Muslims The secular is approached in a theoretical framework of three levels that are paradigm people and society According to findings secular anti Islamism appears to originate from the ideals of the secular to imagine a people society and world order free of religion The final chapter consists of evaluation of the findings and concrete suggestions to tackle the problem of Western anti Islamism Root Causes of Anti Islamic Antagonism argues for a deep rooted approach to anti Islamism studies and suggests that it is a scholarly necessity to focus on these three main realms in the West to understand the anti Islamic phenomena properly
