approach social issues with unbiased problem solving skills Beyond Method Pamela M. Ironside, 2005 *Beyond Method* provides a forum for scholars across health and human sciences disciplines to explore issues surrounding philosophy methodology and epistemology in the context of interpretive scholarship The essays comprising this volume move beyond the practical descriptions or the how to of interpretive methods commonly found in textbooks to explore the contributions underlying assumptions limitations and possibilities embedded within and across particular philosophical methodological and epistemological perspectives They reveal the complexity and richness of understanding that emerges when philosophical issues are explicated within contemporary contexts illuminating new possibilities for healthcare and human science scholarship Publisher description *Ethnobiology for the Future* Gary Paul Nabhan, 2016-04-15 The book centers on a call to define redefine the field of ethnobiology and the need for doing so It points a major way forward for ethnobiology toward engagement with people and communities that are saving ecosystems and lifestyles through reviving traditional agricultural items and techniques and integrating them into the contemporary world Provided by publisher Born in Africa Martin Meredith, 2011-08-18 Africa does not give up its secrets easily Buried there lie answers about the origins of humankind and the dawn of civilisation Through a century of archaeological investigation scientists have transformed our understanding of the beginnings of human life although vital clues still remain hidden In *Born in Africa* Martin Meredith follows the trail of discoveries about our human origins made by scientists over the last hundred years as well as describing the history of scholarship in this incredibly exciting field He relates the intense rivalries personal feuds and fierce controversies that shaped the study and perception of Africa and recounts the feats of skill and endurance that have illuminated thousands of years of human evolution The results have been momentous Scientists have identified more than twenty species of extinct humans and firmly established Africa as the birthplace not only of humankind but also of our own species *homo sapiens* the modern human Scientific study has revealed how early technology language ability and artistic endeavour all originated in Africa and scientists have shown how in an exodus sixty thousand years ago small groups of Africans left their birthplace to populate the rest of the world We all have an African legacy and in this fascinating and informative book Martin Meredith leads us back to the place where we have rediscovered our common human heritage *Practical Ecocriticism* Glen A. Love, 2003 Table of contents *This Strange Illness* Jared Lobdell, 2004-01-01 This brilliant work both personal and professional in character is a study of alcoholism of a movement aimed at its cure and of an individual participant in this development The author develops an interlinked theory and scientific research program that describe an illness of the mind body and spirit He does so without allowing the assumptions underlying the way we look at one area of illness say the mind to contradict the assumptions underlying the way we look at the human body or for that matter the human spirit That Lobdell carries this project to a successful conclusion makes this a compelling work for everyone in the field of alcohol studies and social pathology Lobdell who has written on a broad range of subjects here argues the originality and importance of

recognition of alcoholism as a tripartite illness and of congruent treatment for the three parts He thus accepts a medical view of this vast social problem but also recognizes dimensions within it that go beyond the ordinary limits of medical practice as well as the complexity of its treatment His book is at once an intellectual history of Bill W's vision a short history of alcohol addiction and the culture of that addiction a treatise on the psychological biochemical and spiritual aspects of the illness and its treatment and a scientific research program for the future Norman K Denzin of the University of Illinois has hailed the book as a wonderful story brought to a sophisticated readership and will widely appeal to the recovering population Matthew J Raphael intimate with the subjects as well as the concerns of this book says This Strange Illness is an astounding book Jared Lobdell a brilliant polymath traverses a spectrum of disciplines from biogenetics and chaos theory to psychology sociology and theology in search of a sufficiently complex and comprehensive understanding alcoholism This is the most intellectually rigorous study I have ever seen in the field Jared C Lobdell is author or editor of a dozen books in history and criticism and a number of articles in fields ranging from alcohol studies to systems analysis He has served as a fellow at the Center for Alcoholism and Addiction Studies Brown University His current positions are at Millersville University of Pennsylvania and adjunct professor at Elizabethtown College in Pennsylvania

Re-Membering History in Student and Teacher Learning Joyce E. King, Ellen E. Swartz, 2014-03-05 What kind of social studies knowledge can stimulate a critical and ethical dialog with the past and present Re-Membering History in Student and Teacher Learning answers this question by explaining and illustrating a process of historical recovery that merges Afrocentric theory and principles of culturally informed curricular practice to reconnect multiple knowledge bases and experiences In the case studies presented K-12 practitioners teacher educators preservice teachers and parents use this praxis to produce and then study the use of democratized student texts they step outside of reproducing standard school experiences to engage in conscious inquiry about their shared present as a continuance of a shared past This volume exemplifies not only why instructional materials including most so-called multicultural materials obstruct democratized knowledge but also takes the next step to construct and then study how re-membered student texts can be used Case study findings reveal improved student outcomes enhanced relationships between teachers and families and teachers and students and a closer connection for children and adults to their heritage
