Mapping Jewish Identities New Perspectives On Jewish Studies:

Mapping Jewish Identities Laurence J. Silberstein, 2000-07 Is Jewish identity flourishing or in decline Community leaders and scholarly researchers continually seek to determine the attitudes beliefs and activities that best measure Jewish identity At issue according to these studies is the very survival of the Jewish community itself But such studies rarely ask what actually is being examined when we attempt to assess Jewish identity or any identity Most tend to assume that identity is a preexisting relatively fixed frame of reference reflecting shared cultural and historical experiences Drawing on recent work in such fields as cultural studies poststructuralist theory postmodern philosophy and feminist theory *Mapping Jewish Identities* challenges this premise Contesting conventional approaches to Jewish identity contributors argue that Jewish identity should be conceptualized as an ongoing dynamic process of becoming in response to changing cultural and social conditions rather than as a stable defining body of traits Contributors including Daniel Boyarin Laura Levitt Adi Ophir and Gordon Bearn examine such topics as American Jews desires to connect with a lost immigrant past through photography the complicated function of the Holocaust in the identity formation of contemporary Jews the impact of the struggle with the Palestinians on Israeli group identity construction and the ways in which repressed voices such as those of women Mizrahim and Israeli Arabs have changed our ways of thinking about Jewish and Israeli identity New Perspectives on Jewish Cultural History Maja Gildin Zuckerman, Jakob Egholm Feldt, 2019-08-19 This book presents original studies of how a cultural concept of Jewishness and a coherent Jewish history came to make sense in the experiences of people entangled in different historical situations Instead of searching for the inconsistencies discontinuities or ruptures of dominant grand historical narratives of Jewish cultural history this book unfolds situations and events where Jewishness and a coherent Jewish history became useful meaningful and acted upon as a site of causal explanations Inspired by classical American pragmatism and more recent French pragmatism we present a new perspective on Jewish cultural history in which the experiences problems and actions of people are at the center of reconstructions of historical causalities and projections of future horizons The book shows how boundaries between Jewish and non Jewish are not a priori given but are instead repeatedly experienced in a variety of situations and then acted upon as matters of facts In different ways and on different scales these studies show how people s experiences of Jewishness perpetually probe test and shape the boundaries between what is Jewish and non Jewish and that these boundaries shape the spatiotemporal linkages that we call history Studies in Contemporary Jewry Ezra Mendelsohn, 2003 The essays in this book focus on the establishment of alliances between Jewish leaders and those of the state in return for Jewish support **A Compulsion for Antiquity** Richard H. Armstrong, 2018-07-05 If psychoanalysis is the return of repressed antiquity distorted to be sure by modern desire yet still bearing the telltale traces of the ancient archive then would not our growing distance from the archive of antiquity also imply that we are in the process of losing our grip on psychoanalysis itself as Freud conceived it from Chapter 1 As he developed his striking new science of the mind

Sigmund Freud had frequent recourse to ancient culture and the historical disciplines that draw on it. A Compulsion for Antiquity fully explores how Freud appropriated figures and themes from classical mythology and how the theory and practice of psychoanalysis paralleled contemporary developments in historiography, archaeology, philology, and the history of religions. Drawing extensively from Freud's private correspondence and other notes and documents, Richard H. Armstrong touches on Freud's indebtedness to Sophocles and the Oedipus complex, his interest in Moses and the Jewish religion, and his travels to Athens and Rome. Armstrong shows how Freud turned to the ancient world to deal with the challenges posed by his own scientific ambitions and how these lessons influenced the way he handled psychic evidence and formulated the universal application of what were initially isolated clinical truths. Freud's narrative reconstructions of the past also related to his sense of Jewishness, linking the historical trajectory of psychoanalysis with contemporary central European Jewish culture. Ranging across the breadth of Freud's work, A Compulsion for Antiquity offers fresh insights into the roots of psychoanalysis and finds its place in European culture and makes an important contribution to the burgeoning discipline of mnemohistory.

Impossible Images Shelley Hornstein, Laura Levitt, Laurence J. Silberstein, 2003-10. Impossible Images brings together a distinguished group of contributors including artists, photographers, cultural critics, and historians to analyze the ways in which the Holocaust has been represented in and through paintings, architecture, photographs, museums, and monuments. Exploring frequently neglected aspects of contemporary art after the Holocaust, the volume demonstrates how visual culture informs Jewish memory and makes clear that art matters in contemporary Jewish studies. Accepting that knowledge is culturally constructed, Impossible Images makes explicit the ways in which context matters. It shows how the places where an artist works shape what is produced, in what ways the space in which a work of art is exhibited and how it is named influences what is seen or not seen, and how calling attention to certain details in a visual work, such as a gesture, a color, or an icon, can change the meaning assigned to the work as a whole. Written accessibly for a general readership and those interested in art and art history, the volume also includes 20 color plates from leading artists: Alice Lok Cahana, Judy Chicago, Debbie Teicholz, and Mindy Weisel.

How Jewish cultures are theorized, looking at key themes regarding power, textuality, religion, secularity, memory, bodies, space, and place, and networks. Case studies in contemporary Jewish cultures. With essays by leading scholars in Jewish culture, this book offers a clear overview of the field and offers exciting new directions for the

future *The Jews and Their Future* Esther Benbassa, Jean-Christophe Attias, 2004-09-18 Esther Benbassa and Jean Christophe Attias pose a number of controversial questions that challenge prevailing myths and attitudes about Judaism upsetting conformist discourses and received ideas What if the Jews were not the descendants of the Hebrews What if the Jewish Book was more the Talmud than the Bible What if medieval judeophobia could not be identified with modern anti-Semitism What if orthodoxy was not a return to cultural origins but a new creation What if Zionism had succeeded precisely thanks to its failures What if the time had come to stop denying the tensions between Israel and the Diaspora Between Ashkenazis and Sephardis Between fundamentalists and liberals And what if in particular the transformation of the memory of the Holocaust into a civil religion was now the main barrier to the universalism that with exile and the celebration of life has always been the heart of Jewish experience This provocative and illuminating dialogue explores the very foundations of Jewish culture with the spirit of inquiry and freedom of thought the authors believe will invigorate current debates **The Bloomsbury Companion to Jewish Studies** Dean Phillip Bell, 2013-08-15 The Bloomsbury Companion to Jewish Studies is a comprehensive reference guide providing an overview of Jewish Studies as it has developed as an academic sub discipline This volume surveys the development and current state of research in the broad field of Jewish Studies focusing on central themes methodologies and varieties of source materials available It includes 11 core essays from internationally renowned scholars and teachers that provide an important and useful overview of Jewish history and the development of Judaism while exploring central issues in Jewish Studies that cut across historical periods and offer important opportunities to track significant themes throughout the diversity of Jewish experiences In addition to a bibliography to help orient students and researchers the volume includes a series of indispensable research tools including a chronology maps and a glossary of key terms and concepts This is the essential reference guide for anyone working in or exploring the rich and dynamic field of Jewish Studies **Modern Judaism and Historical Consciousness** Christian Wiese, Andreas Gotzmann, 2007-05-11 The volume composed by excellent scholars from different academic disciplines is a comprehensive handbook devoted to the complex relationship between modern Judaism and historical thinking in Europe the United States and Israel from the Enlightenment to the present Apart from analyzing the emergence of a new scholarly historical paradigm during this period the contributions interpret the interaction and the tensions between Jewish historiography and other disciplines such as literature theology sociology and philosophy describe the way historical consciousness was popularized and used for ideological purposes and explore the impact of different religious or secular identities on the historical representation of the Jewish past A final part envisions new theoretical and methodological concepts within the field including cultural studies and gender studies **Postzionism** Laurence Jay Silberstein, 2008 Reading Postzionism an introduction Laurence J Silberstein The new historiography Israel confronts its past Benny Morris Land labor and the origins of the Israeli Palestinian conflict 1882 1914 Gershon Shafir Introduction to The Palestinian People A History Baruch Kimmerling and Joel S Migdal

Wijeyesinghe, Bailey W. Jackson, 2012-07-30 New Perspectives on Racial Identity Development brings together leaders in the field to deepen broaden and reassess our understandings of racial identity development Contributors include the authors of some of the earliest theories in the field such as William Cross Bailey W Jackson Jean Kim Rita Hardiman and Charmaine L Wijeyesinghe who offer new analysis of the impact of emerging frameworks on how racial identity is viewed and understood Other contributors present new paradigms and identify critical issues that must be considered as the field continues to evolve This new and completely rewritten second edition uses emerging research from related disciplines that offer innovative approaches that have yet to be fully discussed in the literature on racial identity Intersectionality receives significant attention in the volume as it calls for models of social identity to take a more holistic and integrated approach in describing the lived experience of individuals This volume offers new perspectives on how we understand and study racial identity in a culture where race and other identities are socially constructed and carry significant societal political and group meaning **Jewish Women** Katharina Galor, 2023-12-15 Jewish Women Between Conformity and Agency examines the concepts of gender and sexuality through the primary lens of visual and material culture from antiquity through to the present day The backbone of this transhistorical and transcontextual study is the question of Jewish women's agency in four different geographical chronological and methodological contexts beginning with

women's dress codes in Roman Byzantine Syro Palestine continuing with rituals of purity in medieval Ashkenaz worship in papal Avignon and the Comtat Venaissin and ending with marriage and divorce in Israeli film Each of these explorations is interested in creating a dialogue between the patriarchal legacy of the traditional texts and the chronologically corresponding visual and material culture The author challenges traditional approaches to the study of Jewish culture by employing tools from art history archaeology and film and media studies In each of these different contexts there is ample evidence that women despite persistent overall structural discrimination have found ways to challenge male constructs of gender norms Ultimately these examples from past and present times highlight women's eminence in shaping Jewish history and culture Bringing a new interdisciplinary lens to the study of the history of gender and sexuality the book will be of interest to students and researchers of Jewish history and culture art history archaeology and film studies
