Libertarianism Today Jacob H. Huebert, 2010-07-01 This engagingly written introduction examines modern libertarianism and its answers to today's most pressing issues: the economy, war, health care, and more. As government grows by leaps and bounds, libertarianism is receiving more attention than ever. Written from a contemporary perspective by an attorney and law professor who is also an award-winning journalist, *Libertarianism Today* provides an engaging introduction to the movement's ideas and people, serving as a jumping-off point for readers who want to know more. Beginning with the general libertarian principle that one person cannot initiate force against another, even if that person is part of the government, the book examines the implications of this principle for a wide range of contemporary issues: war, health care, personal liberties, economic policy, monetary policy, and intellectual property rights. It introduces the people behind the libertarian movement and explores the strategies, including education, activism, and litigation, libertarians are pursuing to advance their ideas. By laying out the current state of the movement, author J. H. Huebert shows how, even as it gets more mainstream media exposure than ever, today's libertarian movement has only become more radically opposed to the Washington DC status quo.

The Medicalization of Marijuana Michelle Newhart, William Dolphin, 2018-09-03 Winner of the Donald W. Light Award for the Applied or Public Practice of Medical Sociology, *Medical Marijuana* laws have spread across the U.S. to all but a handful of states. Yet eighty years of social stigma and federal prohibition creates dilemmas for patients who participate in state programs. *The Medicalization of Marijuana* takes the first comprehensive look at how patients negotiate incomplete medicalization and what their experiences reveal about our relationship with this controversial plant as it is incorporated into biomedicine. Is cannabis used similarly to other medicines? Drawing on interviews with midlife patients in Colorado, a state at the forefront of medical cannabis implementation, this book explores the practical decisions individuals confront about medical use, including whether cannabis will work for them, the risks of registering in a state program, and how to handle questions of supply, dosage, and routines of use. Individual stories capture how patients redefine and reclaim cannabis use as legitimate individually and collectively, and grapple with an inherently political identity. These experiences help illustrate how stigma, prejudice, and social change operate. By positioning cannabis use within sociological models of medical behavior, Newhart and Dolphin provide a wide-reaching, theoretically informed analysis of the issue that expands established concepts and provides new insight on medical cannabis and how state programs work.

The Cannabis Manifesto Steve DeAngelo, 2015-09-22 An authoritative, persuasive, and riveting call for the legalization and responsible use of medical marijuana, *The Cannabis Manifesto* is a book whose time has come. *The Cannabis Manifesto* is both a call to action and a radical vision of humanity's relationship with this healing but controversial plant. Steve DeAngelo, the founder of Harborside Health Center, the world's largest medical cannabis dispensary, presents a compelling case for cannabis as a wellness catalyst that must be legalized. His view that there is no such thing as recreational cannabis use challenges readers

to rethink everything they thought they knew about marijuana The Cannabis Manifesto answers essential questions about the plant using extensive research to fuel a thoughtful discussion about cannabis science and law as well as its biological mental and spiritual effects on human beings With a cultural critic's eye peering through the lens of social justice DeAngelo explains how cannabis prohibition has warped our most precious institutions from the family to the workplace to the doctor's office and the courtroom In calling for a realistic national policy on a substance that has been used by half of all Americans this essential primer will forever change the way the world thinks about cannabis its benefits and the laws governing its use

Regulating Cannabis DR Todd Subritzky, 2021-07-23 A 5 year investigation of the implementation of the world's first fully regulated cannabis market for pleasure in Colorado. Kind words for *Regulating Cannabis*. This book clearly demonstrates authority in the field of international drug policy and draws predominantly on the latest evidence in doing so. It is a substantial contribution to an emerging policy issue with a plethora of new knowledge displayed throughout. Overall, I found this to be a vital addition to the canon of knowledge regarding cannabis policy change. Dr Mark Monaghan, Head of the Department of Social Policy, Sociology and Criminology, University of Birmingham. The author has broadened the understanding of cannabis regulation when it comes to conflicts between consumer protection, private profit and public health. He has successfully applied and enriched several theoretical concepts in the context of cannabis legalization, especially when it comes to the elephant in the room, the wellness potential of cannabis on legal markets.

Vendela Belackova, PhD, Drug Policy Researcher, Adjunct Senior Lecturer at the Social Policy Research Centre, University of New South Wales. Contents at a glance. At a time when cannabis legalisation is spreading across an increasing number of jurisdictions globally, this book cuts across the noise and presents a factual account of issues faced by regulators in the real world context of Colorado. It can be read as an evidence-based handbook for regulators and should be a first port of call for anyone interested in the legalisation of cannabis. In January 2014, Colorado implemented a commercial cannabis market for pleasure, the first jurisdiction globally to implement a regulated adult use cannabis supply chain from seed to sale. It was reported as an historic occasion that presaged a grand social and economic experiment in drug legalisation. Including analysis of hundreds of pages of government documents, almost 1000 media articles and interviews in the field with over 30 senior government officials, industry executives and front-line public health representatives, this book is the definitive account of real-world cannabis policy implementation. The cannabis academic/public health literature is examined prodigiously, including its potential for harm and benefit together with alternative regulatory approaches. The book also features a number of papers published in academic journals based on the PhD research of the author. The commodification of cannabis vs the craft approach together with the entanglement of the medical and recreational markets are two of many topical themes discussed in detail. Multiple recommendations relevant for other jurisdictions considering the legalisation of cannabis are presented. Recognising the limitations of harm reduction approaches that cannot conceptually conceive beneficial aspects of cannabis consumption, a new framework, the spectrum of wellness, is proposed as an alternative in Appendix 1 of the book.
