Wolfelt, 2015-11-17 Clergy are in a natural position to help people who experience a variety of losses including death divorce moves and develop mental transitions Historically clergy have been involved as supporters of the bereaved yet many clergy say that their education lacked substantive teachings in this area of caring This book is a response to this apparent need While directed at clergy anyone involved in this area of caregiving will find the contents of value

Dialogue on Grief and Consolation Terence Lawlor O'Connell, 2009 Have you lost a loved one The loss can be inestimable the grief excruciating What helped you Did someone say something comforting Did someone offer a consolation which you resented Have you ever tried to comfort someone with a terminal illness or one who has lost a loved one Knowing how to help or what to say that is not trite insincere or superficial can be difficult The point of view of a grieving person is quite different from that of those who wish to offer comfort In a multicultural society such as ours anticipating the beliefs of the grieving person can be even more difficult This book explores the perspective of a grieving person It considers the merits and potential harm of alternative comfort strategies As a philosophical analysis of grief it emphasizes an understanding of the beliefs that underlie grief and the usefulness or dangers of emotions Because grief is so complex and sensitive a narrow approach runs the risk of alienating the grieving person The ideas in this book are expressed in a dialogue among three characters Their discussion is broad and fundamental Starting from the familiar consolation She s no longer suffering and the grieving person s resentment toward the expression the three friends articulate the value of life and the evils of death Their discussion enriches their understanding of grief Many consolations offered to mourners are poor arguments Even the better ones do their work best in the context of a greater understanding of grief

Goodbye: A First Conversation About Grief Megan Madison, Jessica Ralli, 2023-11-07 A picture book edition of the board book about grief offering adults the opportunity to begin important conversations with young children in an informed safe and supported way Developed by experts in the fields of early childhood and activism against injustice this topic driven picture book offers clear concrete language and compelling imagery to introduce the concept of grief This book aims to normalize the topic of death by discussing what it means and how it feels to experience loss It centers around several questions that arise about grief and honest simple ways to answer them While young children are avid observers and questioners of their world adults often shut

down or postpone conversations on complicated topics because it's hard to know where to begin. Research shows that talking about tough issues from the age of two not only helps children understand what they see but also increases self-awareness, self-esteem, and allows them to recognize and confront things that are unfair like discrimination and prejudice. These books offer a supportive approach that considers both the child and the adult. Stunning art accompanies the simple and interactive text, and the backmatter offers additional resources and ideas for extending this discussion.

Supporting Young People Coping with Grief, Loss and Death Deborah Weymont, Tina Rae, 2006-06-15. Includes CD Rom. This book provides an excellent resource for secondary schools to be used in supporting young people coping with grief, loss, and death. Educational Psychology in Practice. As the importance of emotional literacy is better established in schools as a pre-requisite for improving achievement, the PSCH curriculum is increasingly used to offer young people opportunities to express and manage their strong feelings. This book by two experienced and talented authors has been derived from their research and practical work with teenagers. It provides students aged 11 to 18 with an opportunity to consider the effects of grief, loss, and death, develop the ability to talk about, acknowledge, and manage the feelings associated with the grieving process, maintain mental health, and resilience. Most important is the emphasis on the development of emotional literacy skills, and specifically the development of an emotional vocabulary, empathy, tolerance, and resilience. The focus on death and loss and the process of grieving is central to the course. The way in which supporting materials are sensitively illustrated and designed for easy differentiation is also a key feature. Teacher facilitator notes, copiable activities, and all resources are provided for the 10 sessions which can be delivered to either the whole class or to smaller groups of students. Tina Rae is a Senior Educational Psychologist based in Hillingdon. Deborah Weymont is a teacher based in Bristol.

Settling the Storm: A Guide to Facilitating Grief Groups, 2011-04-23. Technically, there are two types of grief groups. The informative, supportive grief groups' purpose is to promote grief education and awareness. It covers grief and bereavement in a more didactic fashion. The second type of grief group is therapeutic in nature. It is personal growth-oriented groups focusing on facilitating the individual participant's own personal loss process. Though many commonalities exist between these two types of groups, each has its own unique dynamics and concerns. This book focuses on the second type of group, sometimes referred to as Grief Recovery Groups. I prefer the term Grief Management. I learned a long time ago that there is no recovery from grief precipitated by the loss of a beloved, but we can overcome. *Settling the Storm* is particularly designed for all who are currently leading a group, who are thinking about facilitating a grief group in the future, or would like to learn some additional skills or ideas in creating a grief group within a small gathering of people. It was created and organized to help Facilitators plan and facilitate grief groups. It takes off by inviting you to self-assess readiness to lead grievers on the journey through grief, reviews the typical characteristics of effective Facilitators, and accentuates the vital skills necessary for ensuring positive outcomes. The next chapter moves you on to a refresher glance at the anatomy of grief and bereavement by

considering elements that influence grief explores the categories of grief and discusses issues relative to grief of the elderly The third section focuses on the essentials for group preparation and helps you organize your thoughts and ideas about groups The practical aspects of goals and objectives and other information are included to provide you with an adequate blueprint for the implementation of your first group session The Content of the Session provides you with some thoughts and suggestions on what to do in your grief groups In addition setting up group guidelines structuring cathartic activities and evaluating the group process are also covered You will be given tried and proven methodologies used to promote the emotional and spiritual well being of grieving group members and fundamental tools needed for ensuring the best possible results A grief group curriculum that can be used as a model is integrated into the overall presentation Optional resources are appended

A Personal Grief N. E. Kurz, 2025-04-03

A Personal Grief Finding Faith Through Loss When a profound loss or tragedy of any kind enters into our lives it's not unusual for the event to knock us down in the totality of our body soul and spirit We've suffered loss beyond what we feel capable of surviving A child's death for example is a major change in life which can cause some bereaved parents to re-evaluate everything including their religious convictions Likewise after trauma of any kind whether it's a great personal tragedy of another sort or a natural disaster of some kind such as a hurricane in Florida or a tornado in Missouri or a raging wild fire in California whatever the event we're startled into realizing our profound need for stability and assistance in our lives And that's because sometimes we have to suffer great loss before we can wake up and respond with joy and gratitude to the good news of the incredible mercy grace and purpose for our lives of the One who made us This is the message to which N. E. Kurz turns in this book She notes that in our attempt to deal with our life after any great loss we'll actually need to dig into all facets of our existence We must persevere in all areas of our lives in order to regroup and to obtain complete healing We must take care of the earthly the physical and emotional part of our temporal being as well as strive for an understanding of the spiritual aspect the Ultimate Reality But how are we to do that We have to gain strength physically and emotionally to get on with what really matters our understanding of the spiritual part But where does that lead us Great loss in our lives may provoke either a strengthening of faith or conversely a crisis of faith Even persons who previously held strong religious convictions may sometimes find themselves struggling with religious concepts that do not seem to match up with the sorrows of life On the other hand for an agnostic person profound loss or crisis may result in a search for or a confrontation of various areas of doubts and questions in order to clarify the meaning and the relevance of personal faith However in trying to make a search for spiritual truth of this sort individuals may run into an assortment of modern problems which loom as serious barriers to faith making it difficult for them to actually find truth Although a majority of men and women in our day struggle with tough questions such as these most Christians downplay the importance of religious questioning Thus seekers of truth are often reluctant to ask the awesome questions lurking just beneath the surface Understanding first hand the current deemphasis on religious questioning N. E. Kurz has published this work the first book of her Window of Opportunity Trilogy both to call attention to the seriousness of the situation and to provide a context to help those struggling with both the temporal and the spiritual aspects of recovery from loss The second book will be *A Reasonable Faith Finding Belief Through Rational Evidence*

Forthcoming Spring 2025 And the third will be A Perilous Time Keeping Faith During Periods of Adversity Forthcoming Summer 2025 In part one of A Personal Grief the author shares the story of her daughter Karen s untimely death which awakened her to the realization of her need to search for objective truth But then miraculously the Lord helped her to find answers to her questions lead her to faith and call her to write Hence she discovered faith through loss But in part two of her book she shares vital material that can assist others in their confrontations with both the temporal and the spiritual aspects of their loss First the temporal by sharing with them about overcoming such things as shock emotional pain depression panic guilt anger health aspects life changes and so forth Then the spiritual by helping them in their search for answers and Ultimate Reality Children and Grief Joey O'Connor,2004-11 A sensitive compassionate book that helps parents teach their children the truth about death and dying **Grief and Loss** Louis Kuykendall Jr.,2020-11-06 The information guidance and resources this book offers make it a valuable tool for anyone directly or indirectly affected by grief particularly teens and young adults Although a near universal experience grief can be very difficult to talk about and handle Many of the thoughts and emotions that arise during grief are powerful and can be isolating confusing and overwhelming Dealing with grief in healthy ways is critical to accepting and adapting to the loss and the changes loss brings This book makes the subject of grief approachable and accessible to readers through a simple Q A format covering topics such as what events are likely to cause grief how experiences of grief differ and how to find support when coping with grief Part of Bloomsbury s Q A Health Guides series Grief and Loss Your Questions Answered follows a reader friendly question and answer format that anticipates readers needs and concerns Prevalent myths and misconceptions are identified and dispelled and a collection of case studies illustrates key concepts and issues through relatable stories and insightful recommendations Each book also includes a section on health literacy equipping teens and young adults with practical tools and strategies for finding evaluating and using credible sources of health information both on and off the internet important skills that contribute to a lifetime of healthy decision making
