Leino, 2021-07-16 This open access two volume set LNCS 12759 and 12760 constitutes the refereed proceedings of the 33rd International Conference on Computer Aided Verification CAV 2021 held virtually in July 2021 The 63 full papers presented together with 16 tool papers and 5 invited papers were carefully reviewed and selected from 290 submissions The papers were organized in the following topical sections Part I invited papers AI verification concurrency and blockchain hybrid and cyber physical systems security and synthesis Part II complexity and termination decision procedures and solvers hardware and model checking logical foundations and software verification Fitness Costs and Benefits of Female Song Michelle L. Hall, Naomi E. Langmore, 2017-09-11 Bird song traditionally regarded as primarily a male trait is in fact widespread among female songbirds and was probably present in the ancestor of modern songbirds Odom et al 2014 Nature Communications These recent findings challenge the view that sexual dimorphism in the expression and complexity of song is largely the outcome of sexual selection on males It is now clear that understanding the evolution of bird song requires explaining variation within and among species in the expression and complexity of female song To do this we need a better understanding of the nature of variation in female song in different contexts and systems as well as the fitness costs and benefits of variation in the expression and complexity of female song This Research Topic draws together current research on female song with the goal of understanding the fitness costs and benefits of the diversity of female singing behaviour apparent among songbirds It includes articles ranging from single species studies investigating how female song varies with context and contrasts with male song to comparative analyses exploring relationships between female song and ecological social and other factors as well as opinion pieces *NASA Formal Methods* Aaron Dutle, César Muñoz, Anthony Narkawicz, 2018-04-06 This book constitutes the proceedings of the 10th International Symposium on NASA Formal Methods NFM 2018 held in Newport News VA USA in April 2018 The 24 full and 7 short papers presented in this volume were carefully reviewed and selected from 92 submissions The papers focus on formal techniques and other approaches for software assurance their theory current capabilities and limitations as well as their potential application to aerospace robotics and other NASA relevant safety critical systems during all stages of the software life cycle **Principles and Practice of Constraint Programming - CP 2009** Ian P. Gent, 2009-09-07 This volume contains the papers presented at CP 2009 The 15th International Conference on Principles and Practice of Constraint Programming It was held from September 20-24 2009 at the Rectory of the New University of Lisbon Portugal Everyone involved with the conference thanks our sponsors for their support There were 128 submissions to the research track of which 53 were accepted for a rate of 41.4% Each submission was reviewed by three reviewers with a small number of additional reviews obtained in exceptional cases Each review was either by a Programme Committee member or by a colleague invited to help by a committee member thanks to their particular

expertise Papers submitted as long papers were accepted at full length or not at all It is important to note that papers submitted as short papers were held to the same high standards of quality as long papers There is thus no distinction in these proceedings between long and short papers except of course the number of pages they occupy As it happens the acceptance rates of short and long papers were very similar indeed There were 13 submissions to the application track of which 8 were accepted for a rate of 61.5% Papers underwent the same review process as regular papers and there was not a separate committee for reviewing application track papers However papers in the application track were not required to be original or novel research but to be original and novel as an application of constraints
