genre of books about the often gruesome but always tragic ways people have died in our national parks this updated edition of the classic includes calamities in Yellowstone from the past sixteen years including the infamous grizzly bear attacks in the summer of 2011 as well as a fatal hot springs accident in 2000 In these accounts written with sensitivity as cautionary tales about what to do and what not to do in one of our wildest national parks Whittlesey recounts deaths ranging from tragedy to folly from being caught in a freak avalanche to the goring of a photographer who just got a little too close to a bison Armchair travelers and park visitors alike will be fascinated by this important book detailing the dangers awaiting in our first national park *Canadian Geographic*, 2006 **Wahb** Ernest Thompson Seton, 2015-07-30 First published more than a century ago *The Biography of a Grizzly* recounts the life of a fictitious bear named Wahb who lived and died in the Greater Yellowstone region This new edition combines Ernest Thompson Seton's classic tale and original illustrations with historical and scientific context for Wahb's story providing a thorough understanding of the setting cultural connections biology and ecology of Seton's best known book By the time *The Biography of a Grizzly* was published in 1900 grizzly bears had been hunted out of much of their historical range in North America The characterization of Wahb along with Seton's other anthropomorphic tales of American wildlife helped to change public perceptions and promote conservation As editors Jeremy M Johnston and Charles R Preston remind us however Seton's approach to writing about animals put him at the center of the Nature Faker controversy of the early twentieth century when John Burroughs and Theodore Roosevelt among others denounced sentimental representations of wildlife The editors address conservation scientists' continuing concerns about inaccurate depictions of nature in popular culture Despite its anthropomorphism Seton's paradoxical book imparts a good deal of insightful and accurate natural history even as its exaggerations shaped early twentieth century public opinion on conservation in often counterproductive ways By complicating Seton's enthralling tale with scientific observations of grizzly behavior in the wild Johnston and Preston evaluate the story's accuracy and bring the story of Yellowstone grizzlies into the present day Preserving the 1900 edition's original design and illustrations Wahb brings new understanding to an American classic updating the book for current and future generations *Best of BACKPACKER 2008* Backpacker Magazine, 2013-09-01 The backcountry is full of great stories and we're proud to bring you this collection of some of our favorites From an award winning tale of a daughter confronting her family's dark past to a tongue in cheek romp through the one of the country's oldest outdoor stores these stories exemplify the power of quality writing and the transformative experience of the outdoors Table of Contents I'm Hiking With Stupid A Buddy Story By Steve Friedman Secret Agent Man Animals can't talk but Ed Newcomer can As an elite U.S. Fish Wildlife detective he goes undercover to protect threatened raptors bears even butterflies and bring poachers and smugglers to court Inside the agency's latest covert operation By Bruce Barcott Don't Pay at the Pump Gas prices are soaring glaciers are melting what's a conscientious hiker to do Take the bus says our reporter who did just that to escape downtown L.A.
