Better read this book or your design will be featured in *Bloopers II*. Seriously bloopers may be fun in Hollywood outtakes but no movie director would include them in the final film. So why do we find so many bloopers in shipped software? Follow Jeff Johnson as he leads the blooper patrol deep into enemy territory he takes no prisoners but reveals all the design stupidities that users have been cursing over the years. Jakob Nielsen Usability Guru Nielsen Norman Group. If you are a software developer read this book especially if you don't think you need it. Don't worry it isn't filled with abstract and useless theory this is a book for doers code writers and those in the front trenches. Buy it read it and take two sections daily. Don Norman President UNext Learning Systems. *hr align CENTER size 1 width 75%* *GUI Bloopers* looks at user interface design bloopers from commercial software Web sites and information appliances explaining how intelligent well intentioned professionals made these dreadful mistakes and how you can avoid them. While equipping you with all the theory needed to learn from these examples GUI expert Jeff Johnson also presents the reality of interface design in an entertaining anecdotal and instructive way. This is an excellent well illustrated resource for anyone whose work touches on usability issues including software engineers Web site designers managers of development processes QA professionals and usability professionals.
