[Spalding's Official Foot Ball Guide ...](#), 1919     **The Dynamics of Interactional Humor** Villy Tsakona, Jan Chovanec, 2018-01-05. This book deals with the construction of diverse forms of humor in everyday oral, written, and mediated interactions. It sheds light on the differences and, most importantly, the similarities in the production of interactional humor in face-to-face and various technology-mediated forms of communication, including scripted and non-scripted situations. The chapters analyze humor-related issues in such genres as spontaneous conversations, broadcast dialogues, storytelling, media blogs, bilingual conversations, stand-up comedy, TV documentaries, drama series, family sitcoms, Facebook posts, and internet memes. The individual authors trace how speakers collaboratively circulate, reconstruct, and re-frame either personal or public accounts of reality, aiming among other things to produce and reproduce humor. Rather than being finished products with a single interpretation, humorous texts are thus approached as dynamic communicative events that give rise to diverse interpretations and meanings. The book draws on a variety of up-to-date approaches and methodologies and will appeal to scholars in discourse analysis, conversation analysis, interactional sociolinguistics, pragmatics, ethnography of communication, and social semiotics.
