

“I need to respond to some harmful content. What should I do?”

Insights and strategies from Kelsey Suter, [Drive Agency](#)

Learn More: [Race Class Narrative \(RCN\) Combatting Disinformation Fact Sheet](#)

What is counter-messaging?

A message that disrupts harmful content by offering a more proactive, truthful message to address the core fear or falsehood being spread. For example:

THEY SAY...	THEY MEAN...	WE SAY...
"She's radical."	<i>She doesn't care about you.</i>	She's spent her career helping those in need.
"She'll do anything for political power."	<i>She didn't earn her place.</i>	She has a proven track record.
"She's not 'really' Black."	<i>Her nomination isn't historic or meaningful.</i>	She's the next part of a generational legacy of civil rights leaders.

Before responding: three factors to consider

1 REACH

To what extent has a new claim or piece of content broken out of its original echo chamber? Is it reaching the people we care about?

2 IMPACT

To what extent do we care if it has broken out of its echo chamber? Is it going to change the offline situation at all? **Who does it impact?**

3 RESPONSE

What's the best plan for **responding** to impacted audiences? How do we mitigate the threat of amplification?

Strichartz, 2012-12-06 Local anesthetics are among the most widely used drugs Their development over the past century ranges from a documented influence on Freud's Interpretation of Dreams 1 to the synthesis of the ubiquitously popular lidocaine as described in Chapter 1 For surgical procedures the use of regional epidural and intrathecal local anesthesia has increased continuously during the past decade Local anesthetics are also applied by physicians to ameliorate unpleasant sensations and reactions to other procedures such as tracheal intubation The presence or the threat of cardiac arrhythmias is often countered by chronic administration of local anesthetic like agents such as lidocaine or procainamide Relief of acute pain accompanying dental manipulations for example and of chronic pain are also accomplished with traditional local anesthetics And over the counter formulations of topical local anesthetics provide practitioners of solar indiscretion welcome relief from their otherwise unaccommodating sunburn In all these applications the final effect of the local anesthetic is an inhibition of electrical activity accomplished as a reduction or total blockade of action potentials The primary site of action is the sodium channel a transmembrane protein which is essential for the influx of sodium ions that subserves impulse generation and propagation in nerves skeletal muscle and heart

The detailed mechanisms of focal anesthetic action are still being investigated and Chapter 2 of this volume provides a current overview of that subject
