Developing Food Products for Consumers with Specific Dietary Needs Steve Osborn,Wayne Morley,2016-05-17 Developing Food Products for Customers with Specific Dietary Needs explains the process for developing foods for customers who have specific dietary needs further shining a light on the number of increasing medical conditions related to food intake that have emerged in the past few decades From increased fat and sugar intake leading to higher levels of obesity to greater levels of coeliac disease the ingredients and nutritional content of food is becoming more and more important Additionally consumers are following particular diets for many different reasons be it health related or for religious or moral reasons The first part of the book looks in detail at the organizational structure required within a company to allow for the development of food products which meet the needs of these customers while the second part presents a number of case studies highlighting the development of food products for various dietary requirements Precise coverage includes section on the development of low sodium low sugar low fat and low carbohydrate products with the aim of producing healthier foods as well as the development of organic and vegetarian products for consumers who are following diets for personal reasons The potential solutions for developing foods for customers who have specific dietary needs are likely to include both ingredients and technology developments The ingredients area includes simple reductions as well as replacement strategies whilst technology will be applied to both the ingredient itself and the host food product All are aimed at maintaining the product quality as perceived by the customer Provides an overview of the organizational structure required within a company to develop foods for specific customer needs Includes section on the development of low sodium low sugar low fat and low carbohydrate products with the aim of producing healthier foods Presents case studies that deliver a best practice view on developing foods for customers with specific dietary needs Written by industry professionals this book offers in depth coverage of this topic of ever increasing importance to the food industry

Nutrition in Promoting the Public's Health Mildred Kaufman,2007 Continuing advances in the science of nutrition and the study of infectious disease require that nutritionists be skilled in the behavioral

sciences and social marketing in order to impact the preventable etiologies of obesity and chronic diseases Add to that a new understanding of the social and environmental effects on health and illness that will further require nutritionists to expand their expertise and assume new roles in the generation of public policy affecting all areas of society This important new book covers all aspects of developing and delivering nutrition related services in the community Grounded in the science of nutrition it offers simple practical guidance and tools for nutritionists whether working in clinical or public health venues to develop and implement effective public nutrition programs Each chapter begins with reader objectives and ends with Points to Ponder and a listing of helpful websites

The Real Life Nutrition Book Susan Calvert Finn,Linda Stern Kass,1992 A guide to eating right helps readers integrate proper nutrition into their current lives choose wisely while food shopping eat to alleviate stress lose weight healthfully and maintain a balanced diet

Food and the Self Isabelle de Solier,2013-10-10 We often hear that selves are no longer formed through producing material things at work but by consuming them in leisure leading to meaningless modern lives This important book reveals the cultural shift to be more complex demonstrating how people in postindustrial societies strive to form meaningful and moral selves through both the consumption and production of material culture in leisure Focusing on the material culture of food the book explores these theoretical questions through an ethnography of those individuals for whom food is central to their self foodies It examines what foodies do and why they do it through an in depth study of their lived experiences The book uncovers how food offers a means of shaping the self not as a consumer but as an amateur who engages in both the production and consumption of material culture and adopts a professional approach which reveals the new moralities of productive leisure in self formation The chapters examine a variety of practices from fine dining and shopping to cooking and blogging and include rare data on how people use media such as cookbooks food television and digital food media in their everyday life This book is ideal for students scholars and anyone interested in the meaning of food in modern life

Consumer Behaviour Zubin Sethna,Jim Blythe,2016-08-27 Praised for its no nonsense approach to engaging students and conveying key learning outcomes and for striking a good balance between sociological and psychological aspects of consumer behaviour the new edition now features increased coverage of social media digital consumption and up to date marketing practice Written from a European perspective international in its scope and with an array of global international examples and cases from a variety of geographic locations and different industry sectors threaded throughout the text students understanding and retention of the subject is encouraged through innovative learning features including how to impress your examiner boxes ideas and tips for what an examiner may be looking for to help students get the best possible grades in their assessments consumer behaviour in action boxes focus on consumer decisions allowing students to focus on the applications of the concepts and theories underpinning the motivations of consumers something they are likely to do in their future careers as marketers challenging the status quo boxes encouraging students to think outside the box think critically and exercise their problem solving skills The book is complemented by a

companion website featuring a range of tools and resources for lecturers and students including PowerPoint slides multiple choice questions case studies interactive glossary flashcards multimedia links and selected author videos to make the examples in each chapter come to life Suitable for Undergraduate students with little or no background knowledge of consumer behaviour
