Best Practice Guide on the Control of Arsenic in Drinking Water Prosun Bhattacharya, David Polya, Dragana Jovanovic, 2017-07-15 Arsenic in drinking water derived from groundwater is arguably the biggest environmental chemical human health risk known at the present time, with well over 100 000 000 people around the world being exposed. Monitoring the hazard, assessing exposure and health risks, and implementing effective remediation are therefore key tasks for organisations and individuals with responsibilities related to the supply of safe, clean drinking water. Best Practice Guide on the Control of Arsenic in Drinking Water, covering aspects of hazard, distribution, exposure, health impacts, biomonitoring, and remediation, including social and economic issues, is therefore a very timely contribution to disseminating useful knowledge in this area. The volume contains 10 short reviews of key aspects of this issue, supplemented by a further 14 case studies, each of which focusses on a particular area, or technological or other practice, and written by

leading experts in the field Detailed selective reference lists provide pointers to more detailed guidance on relevant practice The volume includes coverage of i arsenic hazard in groundwater and exposure routes to humans including case studies in USA SE Asia and UK ii health impacts arising from exposure to arsenic in drinking water and biomonitoring approaches iii developments in the nature of regulation of arsenic in drinking water iv sampling and monitoring of arsenic including novel methodologies v approaches to remediation particularly in the context of water safety planning and including case studies from the USA Italy Poland and Bangladesh and vi socio economic aspects of remediation including non market valuation methods and local community engagement The Illustrated Guide to the Mass Communication Research Project Patricia Swann,2022-12-21 This book makes mass communication research projects more accessible to the new student researcher through a balance between an academically rigorous guide and an informal and humorous student centered approach The Illustrated Guide to the Mass Communication Research Project s unique visual approach brings to life concepts and tactics under discussion through vivid illustrations The book follows the universal format of the academic research paper abstract introduction literature review methodology hypotheses research questions quantitative and qualitative analysis findings discussion and conclusion It guides the reader through using key methods central to much of mass communication research observation interviews focus groups case studies content analysis surveys experiments and sampling Each chapter contains examples of the segment under discussion using excerpted research studies that provide writing models for the student s own research report Ideal for students in research centered courses in mass media communication studies marketing and public relations whether at the undergraduate or graduate level this text will continue to serve as a valuable resource into a future communications and marketing career Online resources are provided to support the book examples of an in depth interview guide a focus group moderator guide a content analysis coding form observation field notes and an experiment cover story templates for a personal SWOT analysis and an informed consent form a research topic worksheet a literature review matrix and coding exercises Please visit www.routledge.com/9781032080758
