*Vermeer* Walter A. Liedtke, 2008 Johannes Vermeer 1632-1675 has been one of the most widely admired European painters since his so called rediscovery in the second half of the nineteenth century Until quite recently the Romantic roots of writing on the Sphinx of Delft have encouraged the image of him as an isolated genius the artist's private life and religion his supposed use of a camera obscura and the fact that his teacher has not been identified have all contributed to an air of mystery As this new monograph demonstrates Vermeer's life is actually well documented and his work may be more appropriately understood by placing the painter in the context of the Delft school as a whole and of Delft society The fact that one local patron acquired about twenty pictures by the artist only thirty six are known today must have been significant for Vermeer's subtleties of meaning and refinements of technique and style In the end however the most historical approach to Vermeer still leaves us with a master whose rare sensibility and extraordinary powers of observation may be described but not explained      *All the Paintings of Jan Vermeer*, 1963      Vermeer Christopher Wright, 2005 Painting paintings

**Vermeer of Delft** Albert Blankert, 1978      All the Paintings of Jan Vermeer Johannes Vermeer, Vitale Bloch, 1963 Vermeer's art can be understood as a synthesis of Dutch life and taste a visual rendering of its plainness and scrupulous order but on the other hand as the historian Huizinga adds these are not women of the year sixteen hundred such and such but figures from an elegiac dream world of utter peace and tranquillity      **Vermeer** Johannes Vermeer, 2008-01-01 This volume contains full color reproductions of all of Vermeer's work with commentaries on each painting and a biography of his life
