**Soldiers Don't Go Mad** Charles Glass, 2023-06-06 The 1 Amazon UK bestseller in War Poetry A brilliant and poignant history of the friendship between two great war poets Siegfried Sassoon and Wilfred Owen alongside a narrative investigation of the origins of PTSD and the literary response to World War I From the moment war broke out across Europe in 1914 the world entered a new unparalleled era of modern warfare Soldiers faced relentless machine gun shelling incredible artillery power flame throwers and gas attacks Within the first four months of the war the British Army recorded the nervous collapse of ten percent of its officers the loss of such manpower to mental illness not to mention death and physical wounds left the army unable to fill its ranks Second Lieutenant Wilfred Owen was twenty four years old when he was admitted to the newly established Craiglockhart War Hospital for treatment of shell shock A burgeoning poet trying to make sense of the terror he had witnessed he read a collection of poems from a fellow officer Siegfried Sassoon and was impressed by his portrayal of the soldier's plight One month later Sassoon himself arrived at Craiglockhart having refused to return to the front after being wounded during battle Though Owen and Sassoon differed in age class education and interests both were outsiders as soldiers unfit to fight as gay men in a homophobic country and as Britons unwilling to support a war likely to wipe out an entire generation of young men But more than anything else they shared a love of the English language and its highest expression of poetry As their friendship evolved over their months as patients at Craiglockhart each encouraged the other in their work in their personal reckonings with the morality of war as well as in their treatment Therapy provided Owen Sassoon and fellow patients with insights that allowed them express themselves better and for the 28 months that Craiglockhart was in operation it notably incubated the era's most significant developments in both psychiatry and poetry Drawing on rich source materials as well as Glass's own deep understanding of trauma and war **Soldiers Don't Go Mad** tells for the first time the story of the soldiers and doctors who struggled with the effects of industrial warfare on the human psyche Writing beyond the battlefields to the psychiatric couch of Craiglockhart but also the literary salons halls of power and country houses Glass charts the experiences of Owen and Sassoon and of their fellow soldier poets alongside the greater literary response to modern warfare As he investigates the roots of what we now know as post traumatic stress disorder Glass brings historical bearing to how we must consider war's ravaging effects on mental health and the ways in which creative work helps us come to terms with even the darkest of times [Video Rating](#)

**Clare Through the Twentieth Century** Lindsey Shaw-Miller, 2001 Numerous histories have been written of the older colleges of Oxford and Cambridge During the 20th century Clare founded in 1326 has two Manfield

Forbes eccentric six century survey up to 1926 and Richard Eden's recent Clare College and the Founding of Clare Hall However no previous attempt has been made by the College or as far as is known by any Oxbridge college to present a wide ranging overview of college life and learning through the 20th century *The Saturday Evening Post*, 1974 **Library of Congress Catalog: Motion Pictures and Filmstrips** Library of Congress, 1968 *The ESPN Pro Football Encyclopedia* Pete Palmer, Gary Gillette, 2007 Presents the statistics of professional American football players coaches and teams for each season from 1920 2006 Cooling the Tropics Hi'ilei Julia Kawehipuaakahaopulani Hobart, 2022-11-21 Beginning in the mid 1800s Americans hauled frozen pond water then glacial ice and then ice machines to Hawai'i all in an effort to reshape the islands in the service of Western pleasure and profit Marketed as essential for white occupants of the nineteenth century Pacific ice quickly permeated the foodscape through advancements in freezing and refrigeration technologies In Cooling the Tropics Hi'ilei Julia Kawehipuaakahaopulani Hobart charts the social history of ice in Hawai'i to show how the interlinked concepts of freshness and refreshment mark colonial relationships to the tropics From chilled drinks and sweets to machinery she shows how ice and refrigeration underpinned settler colonial ideas about race environment and the senses By outlining how ice shaped Hawai'i's food system in accordance with racial and environmental imaginaries Hobart demonstrates that thermal technologies can and must be attended to in struggles for food sovereignty and political self determination in Hawai'i and beyond Duke University Press Scholars of Color First Book Award Recipient **Letter to Libraries**, 1973 *Practical Cues and Social Spectacle in the Chester Plays* Matthew Sergi, 2020-11-13 Amid the crowded streets of Chester guild players portraying biblical characters performed on colorful mobile stages hoping to draw the attention of fellow townspeople In the fifteenth and sixteenth centuries these Chester plays employed flamboyant live performance to adapt biblical narratives But the original format of these fascinating performances remains cloudy as surviving records of these plays are sparse and the manuscripts were only written down a generation after they stopped Revealing a vibrant set of social practices encoded in the Chester plays Matthew Sergi provides a new methodology for reading them and a transformative look at medieval English drama Carefully combing through the plays Sergi seeks out cues in the dialogues that reveal information about the original staging design and acting These practical cues as he calls them have gone largely unnoticed by drama scholars who have focused on the ideology and historical contexts of these plays rather than the methods mechanics and structures of the actual performances Drawing on his experience as an actor and director he combines close readings of these texts with fragments of records revealing a new way to understand how the Chester plays brought biblical narratives to spectators in the noisy streets For Sergi plays that once appeared only as dry religious dramas come to life as raucous participatory spectacles filled with humor camp and devotion **Man Out** Andrew L. Yarrow, 2018-09-11 The story of men who are hurting and hurting America by their absence *Man Out* describes the millions of men on the sidelines of life in the United States Many of them have been pushed out of the mainstream because of

an economy and society where the odds are stacked against them others have chosen to be on the outskirts of twenty first century America These men are disconnected from work personal relationships family and children and civic and community life They may be angry at government employers women and the system in general and millions of them have done time in prison and have cast aside many social norms Sadly too many of these men are unsure what it means to be a man in contemporary society Wives or partners reject them children are estranged from them and family friends and neighbors are embarrassed by them Many have disappeared into a netherworld of drugs alcohol poor health loneliness misogyny economic insecurity online gaming pornography other off the grid corners of the internet and a fantasy world of starting their own business or even writing the Great American novel Most of the men described in this book are poorly educated with low incomes and often with very few prospects for rewarding employment They are also disproportionately found among millennials those over 50 and African American men Increasingly however these lost men are discovered even in tony suburbs and throughout the nation It is a myth that men on the outer corners of society are only lower middle class white men dislocated by technology and globalization Unlike those who primarily blame an unjust economy government policies or a culture sanctioning laziness Man Out explores the complex interplay between economics and culture It rejects the politically charged dichotomy of seeing such men as either victims or culprits These men are hurting and in turn they are hurting families and hurting America It is essential to address their problems Man Out draws on a wide range of data and existing research as well as interviews with several hundred men women and a wide variety of economists and other social scientists social service providers and physicians and with employers through a national online survey and in depth fieldwork in several communities
