Libyan Air Wars Part 1985 1989:

Libyan Air Wars Tom Cooper, Albert Grandolini, Arnaud Delalande, 2015 Between 1973 and 1989 Western powers and Libya were entangled in an exchange of blows Supposedly launched in retaliation for one action or the other this confrontation resulted in a number of high profile clashes between the Libyan Arab Air Force LAAF the US Navy and the French Meanwhile the LAAF also saw deployment in Chad Initially with **War of Intervention in Angola** Adrien Fontanellaz, Tom Cooper, 2019-07-11 As of mid 1976 the civil war in Angola was seemingly decided supported by a large contingent of Cuban forces the MPLA established itself in power in Luanda Its native competitors the US French Zaire supported FNLA and UNITA supported by China and South Africa were in tatters The French and Zaire supported FLEC an armed movement for the independence of the oil rich Cabinda enclave was in disarray The last few of their surviving units were either driven out of the country or forced into hiding in isolated corners of northern and southeastern Angola Nevertheless the war went on The MPLA's government failed to decisively defeat UNITA in southern Angola and then found itself facing a coup attempt from within in May 1977 Crushed in blood this resulted in thousands being jailed and tortured many more escaped abroad where they reinforced the ranks of the battered opposition The coup prompted the Soviets to attempt increasing their influence with the aim of establishing permanent military bases in the country While all such overtures were turned down Angolan operations along the border to what was then the South West Africa subsequently Namibia in October 1980 combined with the increased activity of SWAPO an insurgency against the South African control of that territory subsequently Namibia prompted South Africa to launch another military intervention and resume supporting UNITA In turn this prompted not only the Cubans to further increase their military presence but also the Soviet Union into delivering massive amounts of military aid to the government in Luanda Angola not only assumed the role of one of the major hot battlefields in the Cold War its civil war saw a number of major showdowns between diverse belligerents culminating in the Battle of Cangamba in 1983 Based on extensive research with help of Angolan and Cuban sources War of Intervention in Angola Volume 2 traces the military build up of the Cuban and Soviet supported Angolan military the FAPLA and its combat operations and those of the Cuban military in Angola in the period 1976 1983 their capabilities and intentions and their battlefield performances The volume is illustrated with over 100 rare photographs half a dozen maps and 18 color profiles

Ethiopian-Eritrean Wars Tom Cooper, Adrien Fontanellaz, 2018-07-31 Ethiopia a country of ancient origins in eastern Africa remains a military powerhouse of that continent until our days Nowadays involved in the war in neighboring Somalia Ethiopia was also involved in half a dozen of other armed conflicts over the last 60 years Crucial between these was the Eritrean War of Independence Fought 1961 1991 this was one of the biggest armed conflicts on the African continent especially if measured by numbers of involved combatants It included a wide spectrum of operations from classic counterinsurgency COIN to conventional warfare in mountains with the latter being one of the most complex and most demanding undertakings

possible to conduct by a military force Campaigns run during the Eritrean War of Independence often included large formations of relatively well equipped forces led by well trained commanders along well thought out plans based on homegrown doctrine The air power played a crucial although not necessarily decisive role in many of battles Nevertheless most of details about this conflict remain unknown in the wider public Similarly relatively few Western observers are aware of relations between the Eritrean liberation movements and various dissident and insurgent movements inside Ethiopia although the synergy of these eventually led the downfall of the so called Derg government in 1991 While the first volume in this mini series spanned the history of wars between Ethiopia and Eritrea between 1961 and 1988 the second covers the period since Correspondingly it is providing coverage of military operations that led to the fall of the Derg government in Ethiopia of 1991 the period of Eritrean military buildup and a complete reorganization of the Ethiopian military in the 1990s and concludes with the first detailed account of the so called Badme War fought between Ethiopia and Eritrea in period 1998 2001 It is illustrated by many contemporary photographs maps and color profiles *The Paras* John P. Cann,2017-02-22

Portuguese paratroopers or paras began as a stepchild of the army and found a home in the Portuguese Air Force in 1955 Initially the post World War Two Portuguese Army seemed to have had mixed emotions about the need for elite special purpose forces that operated in small units with the attendant flexibility and elevated lethality Shock troops have been traditionally controversial and even the vaunted military theorist Baron Karl von Clausewitz saw little point in them The history of the paras in the Portuguese Army is illustrative of this ambivalent view Nevertheless in a war of the weak in which insurgents avoid government strengths and exploit its vulnerabilities using agility deception and imagination such small crack government units are particularly well suited to counterinsurgency operations This appreciation emerged with the threat of a new kind of war in Portuguese Africa an insurgency and the new and visionary Air Force well understood the potential of paras when combined with the mobility of the helicopter The Air Force saw an urgent need for troops who could fight an unconventional war who could not only defeat an enemy but separate him from the population in which he sought concealment and support and on which he depended for funding recruits and intelligence These were specialised warfighters who in one minute were physically destroying an insidious enemy and in the next administering aid and support and protecting a vulnerable population These were just the troops that Portugal would require for military success in its approaching battle fought between 1961 and 1974 to retain its African possessions and this vision would be realized on the African battlefield with devastating consequences This book tells the paras story as researched from Portuguese sources It details how they were formed and trained and how they developed their imaginative effective and feared tactics and applied them in operations to protect the population from insurgent predations and destroy a vicious enemy Koevoet Steve Crump,2023-01-19 Koevoet Afrikaans for Crowbar tells of the origination and deployment of the South West African Police s elite counter insurgency capability during the South African Border War of 1978 1989 Drawing upon previously unpublished

sources and from interviews with a number of key personalities including former members of Koevoet this volume the first of two documents the formation of Koevoet and its early operations up to 1984 Koevoet examines the background and context to the South West African conflict and details the early experiences of the South African Police in seeking to counter SWAPO PLAN activities It outlines the tasking assigned to Colonel Hans Dreyer of the South African Police to establish Ops K and to develop a counter insurgency unit as part of the South West African Police response to the developing conflict a unit that was to become both respected and feared and is today considered as one of the most effective counter insurgency forces of modern times Koevoet describes the recruitment of trackers from the local population the integration of black and white Koevoet operators into a single entity their training organization and deployment across the Operational Area The author examines Koevoet tactics in the field including all arms co operation with the South African Defence Force and the South African Air Force and the practice of turning captured SWAPO PLAN fighters and their employment across the Zulu teams The design and evolution of the iconic Casspir and Wolf Mine Protected Vehicles MPVs is covered as is their practical use on operations alongside the development of other specialized weapons and equipment utilized by Koevoet In documenting Koevoet operations in Kavnago Kaokoland and Owamboland Volume 1 of Koevoet seeks to examine SWAPOL COIN s effectiveness and to assess how the lessons learned between 1979 1984 shaped future Koevoet doctrine and thinking to afford the reader a truly inclusive perspective on counter insurgency today as police and armed forces globally move to a greater reliance on cutting edge digital technology including artificial intelligence Color profiles detail a range Mine Protected Vehicles MPVs used by Koevoet including the iconic Casspir and Wolf along with SADF and SAAF helicopters used to support these operations Uniforms and insignia of Koevoet are presented in specially commissioned full color artworks

Operations 'Leopard' and 'Red Bean' Kolwezi 1978 Daniel Kowalczyk, 2019-01-04 This book provides a history of the roots of FNLC Front for the National Liberation of the Congo ex Katanga Gendarmerie in Angola and Zaire political situation under Mobutu regime FNLC incursions into Zaire border since 1977 Shaba Wars I and II and subsequent hostage taking in mining town of Kolwezi The author describes the subsequent French Foreign Legion and Belgian Para Commando airborne operation and freeing of the hostages together with practical destruction of the FNLC as fighting force Libyan Air Wars: 1985-1986 Tom Cooper, Albert Grandolini, Arnaud Delalande, 2016 Between 1973 and 1989 various Western powers and Libya were entangled in a seemingly never ending exchanged of blows Supposedly launched in retaliation for one action or the other this confrontation resulted in a number of high profile even though low scale clashes between the Libyan Arab Air Force LAAF the US Navy and even the French Meanwhile almost as a slideshow the LAAF quantitatively one of the most potent air forces in North Africa and the Middle East also saw intensive deployment in Chad Initially with sporadic fighting between different parties for control of N Djamena the Chadian capital this conflict eventually turned into a major war when Libya invaded the country outright The LAAF deployed not only French made Mirage but also Soviet made fighter bombers of

MiG and Sukhoi design Mil designed helicopters and even bombers of Tupolev design to establish her dominance over the extensive battle field of the Sahara Desert Because of the Cold War but also due to confrontation with Libya over a number of other issues France a one time major arms supplier to Libya and the USA gradually got dragged into the war Deployments of their troops and intelligence services in Chad Egypt and the Sudan never resulted in a full scale aerial operations that proved crucial to developments on the ground several of which are still a matter of extensive debate Detailing not only the aerial operations but the ground war and the geo political background of these conflicts and illustrated with over 100 contemporary photographs maps and all new colour profiles this volume provides a unique insight into a otherwise completely forgotten conflict that raged from the skies over the southern Mediterranean to southern Chad and northern Sudan yet one that not only represented a formative period of the LAAF but which also prompted a number of crucial modifications and developments in France and the USA from back cover

Harpoon Missile vs Surface Ships Lon Nordeen,2024-01-18 An illustrated study of premier US anti ship missile the AGM RGM 84 Harpoon and its 1986 and 88 uses against Libyan and Iranian naval vessels In this study defence technology expert Lon Nordeen details the role played by the Harpoon missile in two Cold War flare ups in the 1980s The Harpoon was the first tactical anti ship missile developed by the US Navy to provide a counter to the anti ship missiles exported around the world by the Soviet Union and China It was deployed on ships aircraft submarines and land vehicles and soon became the most widely used anti ship missile system in the West with 7 000 having been produced since 1977 operated by the military forces of more than 30 nations This exciting book explores the engagements of the Harpoon by the US Navy against its Libyan and Iranian adversaries using original photographs and specially commissioned artwork to examine the naval systems and weapons employed by both counterparts Drawing upon interviews with the US Navy A 6 Intruder crews that deployed the AGM084 variant of the Harpoon in 1986 and 1988 the author brings unique insight to his examination of these fascinating duels
