*Savoring Gotham* traces the rise of New York City's global culinary stardom in 570 accessible yet well-researched A-Z entries. From the Native Americans who arrived in the area 5,000 years before New York was New York and who planted the maize, squash, and beans that European and other settlers to the New World embraced centuries later to Greek diners in the city that are arguably not diners at all, this is the first A-Z reference work to take a broad and historically informed approach to NYC food and drink. *Borders in East and West* Stefan Berger, Nobuya Hashimoto, 2022-09-13

How we define border studies is transforming from focussing on a line in the sand to the more complex notions of how constituting a border is practiced, sustained, and modified. In the expansion of borders studies, the areas explored across Europe and Asia have been numerous, but the specific themes that arise through comparative case studies are novel when approached from Europe and Asian borderlands. Comparing the border experiences in East Asia and Europe in a number of thematic clusters ranging from economics, tourism, and food production to ethnicity, migration, and conquest, *Borders in East and West* aims to decenter border studies from its current focus on the Americas and Europe. **Healthy Pasta** Joseph Bastianich, Tanya Bastianich Manuali, 2015-04-07
