THE ART OF DEFINING LIFE Adrian Gabriel Dumitru, Truth be told we want an over night change in our lives There are many moments when the actual reality is very difficult to handle and looks like we have no escape at all We dream of a quantum jump even if we don't understand the concept very well In few words the reality sucks and we dream of a life that we will never have because deep inside us we don't really believe we will ever meet this reality We have a fake attitude that we are looking for change but this attitude is just a mask for our fears as them not to be seen So we wonder today if there is a way of how our lives can be changed in what we think that should be better for us Does it exist a system that we could follow and achieve our dream life But it must be a simple way otherwise we know that we will not follow the path Everything is happening is related to us and everything could happen is also related to us The magic answer because we are looking only for magic answers is the art of defining life Yes this is an art We need to start be honest with ourselves and all the answers to simple questions as why am I fat because I eat too much why my partner is cheating on me because I did not know to be that perfect partner that I had to be and the list of questions will go on We need to start defining what we don't like Once we understand that the change is in our powers and if we really want a change we will start the process of achieving the new life we dream of We don't need to go to a therapist we don't need to study motivational issues of social media and don't even need to read hundreds or thousands of books to start the change process The art of defining our lives means that we have the

courage to understand what we don't like and define very clear how our reality should look like The depression or what we call depression because many things are unclear in our minds is this huge gap between where we are now and where we want to be We are looking for a magic bridge that should help us go very easily from one point to the other The process itself is a very simple one as long as we decide to be honest to us The art of defining yes is an art And also to live is an art Once we decide that we are brave enough to live our lives the dream life the magic will happen cause all the magic is our powers

Gurudutta Japee, Dr. Preeti Oza, Fr. Magi Murzello, 2022-11-10 Can you recall a time when a story made an impression on you Have you ever felt transported to another time and place where you felt the feelings and understood the motivations of the people there Through storytelling we can put ourselves in the characters shoes We share many of their feelings and understandings The question of how we would respond if put in a comparable situation is something we may all ask ourselves One of the many advantages of listening to or reading captivating stories is the feeling of belonging they can evoke They help the audience feel at ease which boosts their openness to new information and allows them to enter the story from their perspective Because of the flexibility of good stories they are surprisingly useful at breaking down complex ideas into manageable chunks To that end telling a story is more engaging than explaining a theoretical concept or reciting a list of numbers Every day we face a myriad of moral conundrums Once we've given anything some thought and formed an opinion about its goodness or evilness that view tends to stick with us Although we don't always follow our moral convictions they do serve as a source of motivation for us Sometimes the most important lesson we can learn from a story is the value of human interaction Engagement suitable for a wide range of students Safer learning environments encouraging creative thinking providing information that is retained It's no surprise that executives in various industries are turning to storytelling as a potent means of accomplishing the aforementioned goals Storytelling has universal appeal Through the power of the author's imagination even the most mundane circumstances can be elevated to the fantastic in a story Wonderful journeys await us with their guidance and we might learn compassion from them They can make us happy sad or scared but always leave us feeling better in the end From an early age we are taught to take pleasure in stories both as a means of entertainment and as

a tool in our quest for self and world understanding Anger disgust fear happiness sadness and surprise are the six primary emotions that everyone experiences on a regular basis The book s purpose is to instantly motivate or emotionally connect with the reader through the power of a gripping story This book is our earnest effort to convey a single message to you Life isn t easy yet it can be stunning at times We must all make choices and the joy of living is in accepting them and making the most of the outcomes Outing and the Wheelman ,1907 **Princeton Alumni Weekly** ,1968 **Membrane**
