Life In Freedom Liberation Theologies From Asia:

Life in Freedom Michael Amaladoss, 2014-04-17 In *Life in Freedom* Michael Amaladoss analyzes the many rich and complex strands of Asian religious thought on the notion and nature of the path toward liberation. As he shows, Asian liberation theology departs significantly from the Latin American model with which it is commonly compared. Rather than put primary emphasis on economic issues, Asian cultures give much greater priority to the role of religion in the composition of a healthy society. In Part One, Amaladoss discusses current liberation movements and thought in Korea, the Philippines, and India. In two other chapters, he shows also that the awakening of women is integral to the search for human freedom and development and the growing importance of sound ecological policies in any valid approach to liberation in Asia. In Part Two, Amaladoss discusses non-Christian approaches to human liberation and freedom, showing how the lives and thought of influential figures of other faiths have given distinctive shape to Asian approaches to liberation. Buddhists such as Thich Nhat Hanh and Hindus such as Mahatma Gandhi and E. V. Ramaswamy show that hostility to religion is remote from the most characteristic Asian liberation movements. Gandhi's entire politics was rooted in the notion that to attain Truth or to realize God is the goal of human life. But God for Gandhi is realized concretely in the world and particularly in other people. Service to others then becomes a way to God and ultimately to human liberation. Similarly, Confucian traditions embody a deeply indigenous Asian way of constructing reality as a sacred whole. In that construct, liberation and freedom take on meanings and dimensions functionally religious in the way they anchor individuals and the community to the cosmic whole. In Part Three, Amaladoss gives his own analysis and prophetic overview on how the plurality of images of liberation enriches the possibility for interreligious cooperation in overcoming the forces of oppression in Asia.

The Oxford Handbook of Christianity in Asia Felix Wilfred, 2014-05-23 Named by the *International Bulletin of Missionary Studies* as an Outstanding Book of 2014 for Mission Studies. Despite the ongoing global expansion of Christianity, there remains a lack of comprehensive scholarship on its development in Asia. This volume fills the gap by exploring the world of Asian Christianity and its manifold expressions, including worship, theology, spirituality, interreligious relations, interventions in society, and mission. The contributors from over twenty countries deconstruct many of the widespread misconceptions and interpretations of Christianity in Asia. They analyze how the growth of Christian beliefs throughout the continent is linked with the socio-political and cultural processes of colonization, decolonization, modernization, democratization, identity construction of social groups, and various social movements. With a particular focus on interreligious encounters and emerging theological and spiritual paradigms, the volume provides alternative frames for understanding the phenomenon of conversion and studies how the scriptures of other religious traditions are used in the practice of Christianity within Asia.
