## Life In The English Country Cottage:

*Life in the English Country Cottage* Adrian Tinniswood,1997-09 The English cottage is an icon for our times Whether a harmonious blend of timber frame and thatch or golden Cotswold stone it symbolizes country life at its most seductive a chance to return to the rural Eden that was lost to most of us with the Industrial Revolution The picture of cottage life is an attractive and enduring one that has fascinated writers and artists for the last two hundred years But this book shows that life in the English country cottage was far from being the idyll that many of us suppose From the medieval village right through to the twentieth century the author traces the history of the cottage exploring how cottages came to be built and how their appearance was affected by social forces and changing trends But the focus is firmly on people how cottage dwellers spent their time how they were treated by their social superiors what they ate and where they slept and how they decorated and furnished their homes

*The Comforts of Home in Western Europe, 1700-1900* Jon Stobart,2020-02-20 Comfort both physical and affective is a key aspect in our conceptualization of the home as a place of emotional attachment yet its study remains under developed in the context of the European house In this volume Jon Stobart has assembled an international cast of contributors to discuss the ways in which architectural and spatial innovations coupled with the emotional assemblage of objects to create comfortable homes in early modern Europe The book features a two section structure focusing on the historiography of architectural and spatial innovations and material culture in the early modern home It also includes 10 case studies which draw on specific examples from water closets in Georgian Dublin to wallpapers in 19th century Cambridge to illustrate how people made use of and responded to the technological improvements and the emotional assemblage of objects which made the home comfortable In addition it explores the role of memory and memorialisation in the domestic space and the extent to which home comforts could be carried about by travellers or reproduced in places far removed from the home *The Comforts of Home in Western Europe 1700 1900* offers a fresh contribution to the study of comfort in the early modern home and will be vital reading for academics and students interested in early modern history material culture and the history of interior architecture

**Jane Austen and the Clergy** Irene Collins,2003-02-05 Jane Austen was the daughter of a clergyman the sister of two others and the cousin of four more Her principal acquaintances were clergymen and their families whose social intellectual and religious attitudes she shared Yet while clergymen feature in all her novels often in major roles there has been little recognition of their significance To many readers their status and profession is a mystery as they appear simply to be a sub species of gentlemen and never seem to perform any duties Mr Collins in *Pride and prejudice* is often regarded as little more than a figure of fun Astonishingly Jane Austen and the Clergy is the first book to demonstrate the importance of Jane Austen's clerical background and to explain the clergy in her novels whether Mr Tilney in *Northanger Abbey* Mr Elton in *Emma* or a less prominent character such as Dr Grant in *Mansfield Park* In this exceptionally well written and enjoyable book Irene Collins draws on a wide knowledge of the literature and history of the period to describe who the clergy were both in the novels and in life how they were educated and appointed the houses they lived in and the gardens they designed and cultivated the women they married their professional and social context their income their duties their moral outlook and their beliefs Jane Austen and the Clergy uses the facts of Jane Austen's life and the evidence contained in her letters and novels to give a vivid and convincing portrait of the contemporary clergy

*Inner empire* Daniel Maudlin,Alex Bremner,2024-08-06 *Inner Empire* explores the impact of imperial cultures on the landscapes and urban environments of the British Isles from the sixteenth century through to the twentieth century It asserts that Britain's four hundred year entanglement with global empire left its mark upon the British Isles as much as it did the wider world Buildings stood as one of the most conspicuous manifestations of the myriad relationships that Britain maintained with the theory and practice of colonialism in its modern history Divided into two main sections the volume's content considers internal colonisation and its infrastructures of control order and suppression alongside wider relationships between architecture the imperial economy and cultural identity Taken together the essays in this volume present for the first time a coherent analysis of the British Isles as an imperial setting understood through its buildings spaces and infrastructure

**Tales from the Big House: Normanby Hall** Stephen Wade,2017-06-30 *Tales from the Big House Normanby Hall* tells the story of a place known perhaps today mainly as the home where Samantha Cameron grew up but historically it has been the seat of the Sheffield family whose most famous member was arguably the Duke of Buckingham in the seventeenth century As with most country houses the Hall was used as a military hospital in the Great War and in the Second World War

there were military personnel based there again It stands just a few miles from the great steelworks on the Brigg Road which have always defined Scunthorpe so it played its part in the history of steel making also The book includes biographies of the famous but also tells of the lives of the ordinary people who kept the house and the estate going from the gamekeepers to the gardeners and the cooks to the stable hands All this is set against the social background through the centuries of its existence up to the sale of the Hall to Scunthorpe Borough Council in 1964 The lives familiar to us today from Downton Abbey and similar family sagas are at the heart of Stephen Wades history But along the way the reader will meet such characters as Sir Berkeley Sheffield model railway enthusiast Walter Brierley architect Thomas Sumpter the schoolmaster John Fletcher machine maker and perhaps most charismatically of all Lady Arthur Grosvenor an expert on gypsy caravans
