R. Seeley, 2013-09-26 Heinrich Friedrich Karl vom und zum Stein 1757 1831 was a Prussian statesman who contributed to the political transformation of Germany and Prussia during the Napoleonic Period Volume 3 of this three part biography originally published in 1878 records Stein's life from 1813 to 1831 *Outlines of European History: From the seventeenth century to the present time* James Harvey Robinson, James Henry Breasted, Charles Austin Beard, 1919 *The Fall of Stein* R. C. Raack, 1965 Baron Friedrich vom Stein's leadership of the reform movement in Prussia has long been considered part of a critically important phase of early nineteenth century German history R C Raack describes in vivid detail the combination of forces and circumstances which brought about Stein's fall from power as chief minister of Frederick William III Most of the major Prussian political figures of the period were deeply embroiled in the complex and sometimes curious series of events which culminated in the nomination of his successors and Raack's incisive study provides an enlightening reappraisal of both the roles of the individuals concerned and the intricate domestic political situation

Religion and Irreligion in Victorian Society R. W. Davis, R. J. Helmstadter, 2013-01-11 First published in 1992 This volume of eleven specially commissioned essays celebrates the work of Robert K Webb one of the foremost historians of modern Britain The contributors established scholars from Britain Canada Australia and the United States address some of the central themes in the history of nineteenth century religion including evangelicalism and the culture of the market economy religious issues in the liberal politics of the 1830s the radical atheist Robert Taylor Charles Darwin the Victorian ideal of manliness nineteenth century images of Mary Magdalene the Jews in Victorian society colonialism the role of women missionaries as models of female achievement and spiritualism during the Great War Together these essays make a significant contribution to the study of the role of religion in Victorian society

Reimagining the Historian in Victorian England Elise Garritzen, 2023-08-08 What constitutes a historian What skills and qualities should a historian cultivate Who is entitled to define historians physiognomy Victorians sought to answer these questions as history transformed from a Romantic literary pursuit into a modern discipline during the second half of the nineteenth century This book offers a novel interpretation of this critical historiographical period by tracing how historians forged themselves a collective scholarly persona that legitimized their new disciplinary status By combining historiography and book history Elise Garritzen argues that historians appropriated titles prefaces footnotes and other paratexts as an institutionalized space for fashioning the persona Yet historians did not have a monopoly on the persona as readers and reviewers offered their interpretations of the persona and publishers influenced the paratextual presentation of the persona By ascribing agency to paratexts and the literary marketplace Garritzen makes an important shift in the way we perceive the formation of scholarly personae and modern disciplines The book offers a novel approach to the role which scholarly virtues held in the Victorian society the formation of scholarly communities the commodification of knowledge and the management of scientific reputations It provides new insights for scholars interested in the history of humanities science and knowledge book history and Victorian culture

British Books, 1910 **Nationality in History and Politics** Frederick Hertz, 2022-03-07 First published in 1944 Nationality in History and Politics unpacks the vagueness of terms such as nationality national consciousness national character national will national self determination etc The phenomena underlying these terms are exceedingly complex and writers frequently shift the sense according to the interest defended National consciousness comprises a number of different aspirations which however can be summed up as a striving

for national personality The book investigates in detail the correlations between those aspirations and such factors as race language religion territory and State and examines in particular the social background of modern nationalism The chapters give the sociology of national sentiment and national traditions usually called national character against a wide historical background The latter part of the book treats the evolution of ideas on nationality and on supranational aims from the Middle Ages to our own time and the influence of the doctrines of great thinkers on the national ideology of the principal nations This book will be of interest to students of history political science sociology and psychology
