Indigenous Visions Ned Blackhawk, Isaiah Lorado Wilner, 2018-04-24 A compelling study that charts the influence of Indigenous thinkers on Franz Boas, the founder of modern anthropology. In 1911, the publication of Franz Boas's *The Mind of Primitive Man* challenged widely held claims about race and intelligence that justified violence and inequality. Now a group of leading scholars examines how this groundbreaking work hinged on relationships with a global circle of Indigenous thinkers who used Boasian anthropology as a medium for their ideas. Contributors also examine how Boasian thought intersected with the work of major modernist figures, demonstrating how ideas of diversity and identity sprang from colonization and empire.
