Nightwork, updated edition Institute Historian T. F. Peterson, 2011-03-11

A lively introduction to MIT hacks from the police car on the Great Dome to the abduction of the Caltech cannon

An MIT hack is an ingenious benign and anonymous prank or practical joke often requiring engineering or scientific expertise and often pulled off under cover of darkness

instances of campus mischief sometimes coinciding with April Fool s Day final exams or commencement

It should not be confused with the sometimes non benign phenomenon of computer hacking

Noteworthy MIT hacks over the years include the legendary Harvard Yale Football Game Hack when a

weather balloon emblazoned MIT popped out of the ground near the 50 yard line the campus police car found perched on the Great Dome the apparent disappearance of the Institute president's office and a faux cathedral complete with stained glass windows organ and wedding ceremony in a lobby Hacks are by their nature ephemeral although they live on in the memory of both perpetrators and spectators Nightwork drawing on the MIT Museum's unique collection of hack related photographs and other materials describes and documents the best of MIT's hacks and hacking culture This generously illustrated updated edition has added coverage of such recent hacks as the cross country abduction of rival Caltech's cannon a prank requiring months of planning intricate choreography and last minute improvisation a fire truck on the Dome that marked the fifth anniversary of 9 11 and numerous pokes at the celebrated Frank Gehry designed Stata Center and even a working solar powered Red Line subway car on the Great Dome Hacks have been said to express the essence of MIT providing as alumnus Andre DeHon observes an opportunity to demonstrate creativity and know how in mastering the physical world What better way to mark the 150th anniversary of MIT's founding than to commemorate its native ingenuity with this new edition of Nightwork
