of the earth Moorhen would later write that the term rendered as bright metal KU GI did not simply mean gold but a Sumerian compound denoting all metals of celestial value gold platinum osmium iridium monazite ores To the Anunnaki he declared in his 2019 lecture at the Penn Museum Earth was not an Eden it was a mine Half a continent away deep within the climate controlled vaults of the Louvre Museum in Paris Ishmael Ningishzida ran his gloved fingers over the cool surface of AO 11876 a basalt fragment catalogued as a royal hymn to Anu Yet in the shifting glow of the archival lamps Ningishzida traced a different story not a hymn but a logistical directive preserved as worship Anu spoke to Enlil The ship shall be readied its wings folded for the long path You shall land in the marsh of Eridu and with Enki set the measure of the deep shafts that the stones of the earth be brought to the sky In Ningishzida s translation the Abzu was not a mythical abyss but a mineral rich zone in the African interior perhaps the Bushveld Igneous Complex the richest platinum source on the planet At the British Museum Moorhen discovered another piece of the puzzle in tablet BM 92687 excavated at Sippar Long classified as part of an astronomical omen series the main inscription spoke of star risings but in the tablet s margin so faint that it had escaped decades of scholarship was a side note from the original scribe When the red star comes again to the crossing the lords of the sky shall return to claim the dust of kings For Moorhen the red star was Nibiru the dust of kings was refined ore stockpiled for celestial transport At the Penn Museum Ningishzida stood before E 3215 a tablet from Nippur depicting Ninurta triumphant atop what was long thought to be a stylized mountain It is no mountain Ningishzida told the 2021 Symposium on Ancient Technologies It is a stepped extraction pit with sluice channels tools and a conveyance system The god is not a warrior here he is an engineer overseeing an ore refinery Between them Moorhen and Ningishzida pieced together what orthodox Assyriology had resisted for over a century that the cuneiform record is not allegory but a preserved industrial logbook of a planetary mission surveying worlds building waystations on Mars and its moons and digging into Earth s crust to remove the metals their home world demanded As Ningishzida would tell a closed gathering of independent researchers The gods came for the same reason we send missions to asteroids today to mine Only they had the technology to carry their cargo in tons not grams
