Auten Jr., 2024-10-25 Robert K Auten Jr reveals how the Lord helped him become the person he is today in this book The author's guidance began through his parents who taught him numerous important lessons Then through His shepherding the Lord weaned the author from his parents to Himself Esteemed Jewish Sages declare that there is a triune partnership in every human being's life That partnership is God and the person's father and mother They further express that if someone honors their parents God considers it as if that person had honored Him That triune partnership in the author's life coupled with its intended teaching and experiences demonstrated that God has never forsaken him On the contrary He has confirmed His presence via pursuit persuasion protection correction and the revelation of His word the Bible Written as a series of vignettes with simple takeaways and confirming messages the lessons in this book will help you appreciate the presence of God in your own life and pave the way for you to walk closer to Him     *Life's Lessons from a Father to His Daughter* Bob Grossmann, 2003 Life s

Lessons from a Father to his Daughter uses twenty four stories pictures and artwork to help teach our children life s lessons with the aim of helping our children learn to make good decision making skills Decision making skills are often not well taught or integrated into a strong sense of personal philosophy Human nature can be impulsive The use of stories real life or metaphors to pass on life lessons from one generation to another is at the core of our oral and written traditions Parents can help to pass on this information as a creative way to install core values help reduce the chance of mishap and enhance lifelong success Part of the challenge is establishing a dialogue that allows worldviews to be discussed both the commonalties and the differences Perhaps part of the failure to achieve a sustained dialogue is that we as parents wait too long to start the dialogue Part of the challenge too is that the lessons have different levels of meaning as we age So Life s Lessons from a Father to his Daughter was written to have meaning at the different stages of life in one s mid teens mid twenties and again in mid life Value exists in the stories being real Non fiction can carry more weight Children need to learn early that their parents continue to go through what they are experiencing We too make mistakes that we try and fail and we are both individuals and members of larger communities All the increasing access to information may not make decision making easier Greater discrimination and better choices will be essential So read the vignettes with your children and see where the discussion goes Be sure to have a few good laughs along the way Life s Lessons from a Father to his Daughter is a tool to help parents communicate with their children by providing a context for parents to add their own personal stories
