Back to America William H. Westermeyer, 2019-11 Back to America is an ethnography of local activist groups within the Tea Party one of the most important recent political movements to emerge in the United States and one that continues to influence American politics Though often viewed as the brainchild of conservative billionaires and Fox News the success of the Tea Party movement was as much if not more the result of everyday activists at the grassroots level William H. Westermeyer traces how local Tea Party groups LTPGs create submerged spaces where participants fashion action oriented collective and personal political identities forged in the context of cultural or figured worlds These figured worlds allow people to establish meaningful links between their own lives and concerns on the one hand and the movement's goals and narratives on the other Collectively the production and circulation of the figured worlds within LTPGs provide the basis for subjectivities that often nurture political activism Westermeyer reveals that LTPGs are vibrant and independent local organizations that while constantly drawing on nationally disseminated cultural images and discourses are far from simple agents of the larger organizations and the media Back to America offers a welcome anthropological approach to this important social movement and to our understanding of grassroots political activism

Tackling Terrorism in Britain Steven Greer, 2021-10-14. In September 2001, the world witnessed the horrific events of 9/11. A great deal has happened on the counterterrorist front in the 20 years since. This ambitious study takes stock of counterterrorism in Britain in this anniversary year. Assessing current challenges and closely mirroring the four Ps of the official CONTEST counterterrorist strategy: Protect, Prepare, Prevent, and Pursue, it seeks to summarize and grasp the essence of domestic law and policy without being burdened by excessive technical detail. It also provides a rigorous, context-aware, illuminating yet concise, accessible, and policy-relevant analysis of this important and controversial subject, grounded in relevant social science, policy studies, and legal scholarship. This book will be an important resource for students and scholars in law and social science as well as human rights, terrorism, counterterrorism, security, and conflict studies.
