A Guide to Qualitative Meta-synthesis Deborah Finfgeld-Connett, 2018-03-01 A Guide to Qualitative Meta synthesis provides accessible guidelines for conducting all phases of theory generating meta synthesis research including data collection analysis and theory generation It is a research methodology that is designed to generate evidence based theory by extracting analyzing and synthesizing qualitative findings from across published investigations These theories provide scaffolding that can be used by health care providers and other professionals to make context based decisions and implement situation specific actions Theory generating meta synthesis methods stem from the qualitative research paradigm especially grounded theory Systematic and rigorous methods are used to identify topically related research reports that provide qualitative findings for analysis The subsequent analysis of the data goes beyond merely reorganizing and recategorizing research findings Newly synthesized concepts are developed and the dynamic relationships among them are fully articulated

Articulate Necrographies Anastasios Panagiotopoulos,Diana Espírito Santo,2019-07-16 Going beyond the frameworks of the anthropology of death Articulate Necrographies offers a dramatic new way of studying the dead and their interactions with the living Traditional anthropology has tended to dichotomize societies where death speaks from those where death is silent the latter is deemed scientific and the former religious or magical The collection introduces the concept of necrography to describe the way death and the dead create their own kinds of biographies in and among the living and asks what kinds of articulations and silences this in turn produces in the lives of those affected **Affirming Black Students' Lives and Literacies** Arlette Ingram Willis,Gwendolyn Thompson McMillon,Patriann Smith,2022 Drawing on the authors experiences as Black parents researchers teachers and teacher educators this timely book presents a multipronged approach to affirming Black lives and literacies The authors believe change is needed not within Black children but in the way they are perceived and educated particularly in reading writing and critical thinking across grade levels To inform literacy teachers and school leaders the authors provide a conceptual framework for reimagining literacy instruction based on Black philosophical and theoretical foundations historical background literacy research and authentic experiences of Black students This important book includes counternarratives about the lives of Black learners research conducted by Black scholars among Black students examples of approaches to literacy with Black children that are making a difference conversations among literacy researchers that move beyond academia and a model for engaging all students in literacy Affirming Black Students Lives and Literacies advocates for adopting a standard of care that will improve and support literacy achievement among today s Black students by rejecting deficit presumptions and embracing the fullness of these students strengths Book Features A counternarrative of Black literacy history lives and learners Narrative examples of Black literacy scholarship by Black scholars who embrace their faith walk as an integral part of their holistic approach to literacy teaching and learning Discussion questions to spur conversations among school administrators parents caregivers politicians reading researchers teacher educators and classroom teachers An array of extant Black scholarship that should inform literacy praxis and research A conceptual framework CARE that is applicable for all learners with a focus on Black literacy learners *Back to America* William H. Westermeyer,2019-11 Back to America is an ethnography of local activist groups within the Tea Party one of the most important recent political movements to emerge in the United States and one that continues to influence American politics Though often viewed as the brainchild of conservative billionaires and Fox News the success of the Tea Party movement was as much if not more the result of everyday activists at the grassroots level William H Westermeyer traces how local Tea Party groups LTPGs create submerged spaces where participants fashion action oriented collective and

personal political identities forged in the context of cultural or figured worlds. These figured worlds allow people to establish meaningful links between their own lives and concerns on the one hand and the movement's goals and narratives on the other. Collectively, the production and circulation of the figured worlds within LTPGs provide the basis for subjectivities that often nurture political activism. Westermeyer reveals that LTPGs are vibrant and independent local organizations that while constantly drawing on nationally disseminated cultural images and discourses are far from simple agents of the larger organizations and the media. *Back to America* offers a welcome anthropological approach to this important social movement and to our understanding of grassroots political activism writ large.

The War in American Culture Lewis A. Erenberg, Susan E. Hirsch, 2014-12-10 The War in American Culture explores the role of World War II in the transformation of American social, cultural, and political life. World War II posed a crisis for American culture to defeat the enemy; Americans had to unite across the class, racial, and ethnic boundaries that had long divided them. Exploring government censorship of war photography, the revision of immigration laws, Hollywood moviemaking, swing music, and popular magazines, these essays reveal the creation of a new national identity that was pluralistic but also controlled and sanitized. Concentrating on the home front and the impact of the war on the lives of ordinary Americans, the contributors give us a rich portrayal of family life, sexuality, cultural images, and working class life, in addition to detailed consideration of African Americans, Latinos, and women who lived through the unsettling and rapidly altered circumstances of wartime America.
