Life Orientation Memo September 2013:

Sexual Diversity and the Sochi 2014 Olympics H. Lenskyj, 2014-02-07 This book examines Russia's 2013 anti gay laws and their implications for the Sochi 2014 Olympics. Lenskyj argues that Putin's Russia and the International Olympic Committee wield power in similar ways as evident in undemocratic governance, fraudulent voting processes, hypocrisy, and absence of accountability.

Handbook of Positive Psychology in Schools Kelly-Ann Allen, Michael J. Furlong, Dianne Vella-Brodrick, Shannon Suldo, 2022-02-23 The Handbook of Positive Psychology in Schools offers the most current and comprehensive insights into how positive psychology principles provide a framework for young people to become active agents in their own learning. The third edition of this groundbreaking volume assembles the latest global research identifying fundamental assets: hope, optimism, gratitude, self-efficacy, emotional regulation, among others that support students' learning and well-being. Chapters examining social-ecological perspectives on classroom quality and school climate provide best practice guidance on schoolwide policies and practices. These 35 new chapters explore positive psychology's ongoing influence and advances on prevention, intervention, and assessment practices in schools.

Trans Life and the Catholic Church Today Nicolette Burbach, Lisa Sowle Cahill, 2024-08-22 While transgender and non-binary identities are increasingly visible, too many Christians have either maintained a fearful silence or have attacked transgenderism as a threat to Christian faith and practice. More serious theological reflection is needed, not least of all in the Roman Catholic tradition. Moreover, the Catholic context presents particular challenges that are relevant beyond the Catholic world due to the Church's widespread involvement in healthcare provision and education and its traditions of thought around these activities. This volume considers the various questions to do with trans people in the life of the Church from an interdisciplinary Catholic-ecumenical perspective, reaching out to academics, clergy, and educated lay readers. It brings together perspectives from a variety of disciplines to provide a rigorous, wide-ranging engagement with these pressing issues and includes a number of trans contributors making their voices present in these discussions, which are about them but from which they are often excluded. The first three chapters illustrate the development of Catholic thinking on transgender issues in recent decades. The second section of the book considers transgender identity from multiple perspectives: canon law, legal, sociological, clinical, bioethical, and educational. The last two chapters of the second section shift the focus in the direction of theology and pastoral practice themes that are explored by

emerging theological scholars in the third section of the book *Elite Youth Sport Policy and Management* Elsa Kristiansen, Milena M. Parent, Barrie Houlihan, 2016-10-04 Elite youth sport competitions have increased significantly in number in recent years with the Youth Olympic Games representing the high point of this phenomenon This book examines the global context within which elite youth sport has emerged and continues to grow It explores elite youth sport policy across fifteen countries in Europe the Americas Africa and Asia addressing the questions of how youth talent development is organised and why elite youth sport has become so popular Taking a comparative global perspective the book analyses the growth in more systematic approaches to young athlete development and the increasing emphasis on early talent identification It discusses the attitude of stakeholders such as NGBs governments and sponsors towards elite youth sport while also considering how young elite athletes interests are protected and how the growth in elite youth sport affects a sports development strategy Written by a team of internationally renowned researchers *Elite Youth Sport Policy and Management* A comparative analysis is fascinating reading for all students scholars managers policy makers and coaches with an interest in youth sport elite sport development talent identification and sports policy **Calling the Shots** Daniel P. Gitterman, 2017-02-14 Modern presidents are CEOs with broad powers over the federal government The United States Constitution lays out three hypothetically equal branches of government the executive the legislative and the judicial but over the years the president as head of the executive branch has emerged as the usually dominant political and administrative force at the federal level In fact Daniel Gitterman tells us the president is effectively the CEO of an enormous federal bureaucracy Using the unique legal authority delegated by thousands of laws the ability to issue executive orders and the capacity to shape how federal agencies write and enforce rules the president calls the shots as to how the government is run on a daily basis Modern presidents have for example used the power of the purchaser to require federal contractors to pay a minimum wage and to prohibit contracting with companies and contractors that knowingly employ unauthorized alien workers Presidents and their staffs use specific tools including executive orders and memoranda to agency heads as instruments of control and influence over the government and the private sector For more than a century they have used these tools without violating the separation of powers *Calling the Shots* demonstrates how each of these executive powers is a powerful weapon of coercion and redistribution in the president s political and policymaking arsenal *The Campus Rape Frenzy* KC Johnson, Stuart Taylor Jr., 2017-01-24 In recent years politicians led by President Obama and prominent senators and governors have teamed with extremists on campus to portray our nation s campuses as awash in a violent crime wave and to suggest preposterously that university leaders professors and students are indifferent to female sexual assault victims in their midst Neither of these claims has any bearing in reality But they have achieved widespread acceptance thanks in part to misleading alarums from the Obama administration and biased media coverage led by the New York Times The frenzy about campus rape has helped stimulate and has been fanned by ideologically skewed campus sexual assault policies and

lawless commands issued by federal bureaucrats to force the nation's all too compliant colleges and universities essentially to presume the guilt of accused students. The result has been a widespread disregard of such bedrock American principles as the presumption of innocence and the need for fair play. This book uses hard facts to set the record straight. It explores among other things about two dozen of the many cases since 2010 in which innocent or probably innocent students have been branded as sex criminals and expelled or otherwise punished by their colleges. And it shows why all students and eventually society as a whole are harmed when our nation's universities abandon pursuit of truth and seek instead to accommodate the passions of the mob.

Disaffiliating Ministry Gregory Baker, 2019-08-23 This book explores the shifting role of the minister in light of the experiences of college men in the United States. Young men frequently struggle to know what it means to be a man and doubt that churches can supply the meaning and direction for which they hunger. These men are not necessarily lost but they do need a certain kind of spiritual accompaniment that is likely to push many ministers outside of postures and practices with which they have grown comfortable. This interdisciplinary work draws together feminist and masculinist theories, contemporary practices in campus ministry, recent literature on religious deconversion, and individual interviews with college men in order to argue for new ways amid the practice of ministry. This work invites ministers to become more apophatic, to grow comfortable with moving away from clarity and to adopt ungrasping postures of ministry that attend to the unfolding theology of the individual. This repositions campus ministers to support young adults from a range of spiritual commitments. *Disaffiliating Ministry* invites ministers to eliminate wasteful ministerial habits to explore new ministry practices and to enjoy the freedom of accompanying young men in processes of leaving behind attitudes and actions that cease to be life giving while deepening in faith, courage, and responsibility for others.

Against Tad DeLay, 2019-08-06 What does the white evangelical want? In our moment of crisis and rage, this question is everywhere. Scholars ask from where its desires emerged; pundits divine its political future; and the public asks how we lapsed into social chaos. For their part, white evangelicals feel misunderstood while failing to see the direction of their ambitions. We must interrogate its aims not only through its past or current trends but also through the various fantasies by which it rejects and enlivens reality. *Against* traces five zones of opposition: future knowledge, sexuality, reality, and society. If climate change is the greatest threat civilization has ever faced, then a faith aiding collapse must face analysis. If it swims in assured forgiveness, it feels no shame for its sins against humanity. If it wants a king, it threatens democracy. If it veils xenophobia, it shall be ever more cruel. In a critical and accessible history of odd ideas, DeLay chronicles the past and sketches its troubling future. It might die, but what's certain is that a faith built on nostalgia and supremacy won't moderate. We live in dangerous times, so let us consider its justifications, turmoil, appetite, and catastrophe.

Digging Deeper Dietmar Sternad, James J. Kennelly, Finbarr Bradley, 2017-09-08 What is the primary purpose of business? The standard answer is making profits, but some visionary entrepreneurs and leaders fundamentally disagree. Instead of just making money, they choose instead to dig

deeper and make a difference through creating real value improving the lives of others even as they find deeper meaning in their own These leaders build enterprises that provide identity and a sense of purpose create positive relationships and a place to learn and thrive embed sustainability in all that they do and strive to improve the quality of life of all of their stakeholders Although not their primary focus they also make healthy profits as their unique approach to value creation provides them with a sustainable competitive edge Digging Deeper is a book full of inspiring stories that illustrate that there is an alternative to a myopic and narrow capitalism that trades in inequalities exploitation collective burnout and negative consequences for our shared natural environment Remarkable examples from all over the world vividly demonstrate how enterprises can create real value through focusing on what the authors call the 6 Ls long term orientation lasting relationships local roots limits recognition developing a learning community and taking leadership responsibility seriously in its very best sense Digging Deeper liberates the term value from the tight chains in which the global financial community has bound it and demonstrates that businesses can contribute to a better life for all if their leaders can go beyond viewing enterprises as single purpose money making machines and develop purpose driven enterprises that create real value for all
