Phil Hughes,Ed Ferrett,2007-02-19 Introduction to Health and Safety in Construction covers the specific challenges faced by  
the construction industry as well as the basics of occupational safety and health in general The coverage of this book has  
been directly matched to the Certificate course in Construction Safety and Health from NEBOSH However the  
comprehensive coverage of health and safety topics in a construction context make it relevant for other courses in  
Construction Design and Management Construction Safety and Health and the Built Environment both in the UK and  
overseas as well as for construction professionals who are looking for an introduction to health and safety which addresses  
the specific problems encountered in their industry In its second edition the book has been updated to incorporate changes in  
legislation regarding Noise Vibration COSHH Work at Height Fire Safety Construction Design and Management Asbestos  
The text is highly illustrated in full colour easy to read and includes self assessment questions taken directly from NEBOSH  
examinations A chapter on study skills offers support for professionals returning to study The text is also supported with  
checklists report forms and record sheets making it a valuable reference tool for construction managers supervisors  
designers building and civil engineers to consult on the day to day issues of health and safety **Functional Grouping**
