Stalingrad Vasily Grossman, 2019-06-11 In April 1942 Hitler and Mussolini meet in Salzburg where they agree on a renewed assault on the Soviet Union Launched in the summer the campaign soon picks up speed as the routed Red Army is driven back to the industrial center of Stalingrad on the banks of the Volga In the rubble of the bombed out city Soviet forces dig in for a last stand The story told in Vasily Grossman s *Stalingrad* unfolds across the length and breadth of Russia and Europe and its characters include mothers and daughters husbands and brothers generals nurses political activists steelworkers and peasants along with Hitler and other historical figures At the heart of the novel is the Shaposhnikov family Even as the Germans advance the matriarch Alexandra Vladimirovna refuses to leave Stalingrad Far from the front her eldest daughter Ludmila is unhappily married to the Jewish physicist Viktor Shtrum Viktor s research may be of crucial military importance but he is distracted by thoughts of his mother in the Ukraine lost behind German lines In *Stalingrad* published here for the first time in English translation and in its celebrated sequel *Life and Fate* Grossman writes with extraordinary power and deep compassion about the disasters of war and the ruthlessness of totalitarianism without however losing sight of the little things that are the daily currency of human existence or of humanity s inextinguishable saving attachment to

Musicologia Robin Maconie, 2010-07-09 In Musicologia meaning musical reasoning as distinct from a mere love of music author and composer Robin Maconie takes aim against the fashionable misconception that music is empty of meaning or auditory cheesecake Fresh and penetrating insights draw attention to the influence of musical analogy in the history of science and philosophy from ancient Greece to modern times Since music has always existed it is an expression of human consciousness The discoveries of Pythagoras Zeno Kepler Newton and Einstein would not have been possible without a tradition of musical acoustics The story of Musicologia unfolds in thirty one chapters from primordial considerations of silence communication selfhood balance and motion to focus on more recent and specific issues of chaos order relativity and artificial intelligence showing that even the most controversial aspects of modern art music form part of a wider endeavor to engage with universal propositions of science and philosophy

In Search of Solitude Thomas C. Oden, 2010-11-09 In Search of Solitude is a collection of meditations that record moments of a spiritual pilgrimage The purpose of these meditations is to put the soul in touch with the eternal in an ordinary time frame Tom Oden relies on the ancient classic pattern of daily meditative hours to order the life of prayer An hour here refers not to sixty minutes but to the phases of the daily cycle related to darkness and light Spending even a minute in prayer and meditation seven times a day sanctifies the entire daily cycle In Search of Solitude presents selections from Tom Oden's lifetime of personal meditations arranged according to the daily hours for seven weeks A series of prose interludes explain the understanding of the flow of time in which the acts of praise occur Organized during the ten years following his wife's death the meditations point to particular events and glimpses of reality Readers can meditate on them to grasp meaning and applications for their own lives Those who mourn the lost richness of an ordered prayer life will find In Search of Solitude a contemporary means of re-grounding their spirituality simply by accessing this celebrated ancient

structure made available in electronic format at their fingertips PLOTINUS Ennead IV.4.30-45 & IV.5 Gary M. SJ Gurtler, 2015-04-30 Ennead IV 4 30 45 and IV 5 retrieves the unity in this last section of Plotinus treatise on Problems concerning the Soul Combining translation with commentary Gurtler enhances both the accuracy of the translation and the recovery of Plotinus often unsuspected originality This is especially true for IV 5 where previous translations fail to convey the concise nature of his argument against both the Aristotelian and Platonic theories of vision Plato and Aristotle each claim that vision depends on the light between the eye and the object but Plotinus presents evidence that this is not the case and develops a novel theory of light as a second activity that moves from source to object directly even arguing that color is in the light itself rather than merely a quality of the object This theory of vision in turn depends on the nature of sympathy developed especially in IV 4 30 45 where Plotinus shows how action at a distance is both possible and necessary for the proper unity in diversity of the sensible cosmos *Deer, the Star Catcher and Woman Bringer* Richard Arling Marshall, 2013-05-30 The story is of a young Chahta Choctaw boy s odyssey into manhood prior to the European discovery of the Americas The young man Issi Deer lives at Nanih Wayia the Chahta Mother Site Winston County Mississippi Throughout the story Issi shows a great deal of character as he nears adulthood mixing the real world with the spirit world In a cross cultural way the story is a kind of imaginary time travel where people lived quite differently from us yet were as human and as loving having the same feelings and hopes but expressing and achieving them with different thoughts and actions They are referred as the Oklafihna and the Chito meaning the Great People The Oklafihna are a village and community and a part of the greater collegium of peoples later known as the Chahta Within the story are brief glimpses of the people the geographic place and the environment The story is a fictional adventure placed primarily in Mississippi and the adjacent states Comments on the ethnographic customs and descriptions of daily living and activities are based upon the written literature enhanced by the writer s personal interpretations of the Southeastern United States Indians and their archaeology and imagination Many places referenced are actual though little known Brief historical comment is made of places when important to the understanding of the story and place The story hopefully builds a believably real and acceptable construct of Issi s time place and adventure mixed with the spirit world Moderate use of Chahta words throughout the story lend authenticity About the Author Richard Arling Marshall has spent more than fifty years as a teacher and archeologist Born in 1928 in Belen New Mexico he grew up in Missouri graduating with a bachelor s in art and science and obtained a master s degree in anthropology from the University of Missouri Columbia Missouri After 1966 the author was associated with the Department of Sociology and Anthropology and the Cobb Institute of Archaeology Mississippi State University as professor of anthropology and conducted research and salvage archaeology and Cultural Resource Surveys throughout that state He retired in 1994 as associate professor of anthropology emeritus The author s wife is Helen Justine Noe formerly of Lilbourn Missouri Together they have two daughters and five grandchildren 2013 Paperback 568 pages Moravian heresy.
