Los 10 mitos del nacionalismo catalán Joaquín Leguina, 2014-09-23 Un libro valiente que desmonta las fabulaciones soberanistas que durante años han pretendido ser soporte de un nacionalismo a menudo excluyente En vísperas de unas elecciones autonómicas que en Cataluña tendrán probablemente más relevancia que nunca Joaquín Leguina un político de experiencia contrastada acostumbrado a ser una voz crítica incluso dentro de su partido reflexiona acerca de errores y mitos unánimemente aceptados que a lo largo del tiempo han falseado la realidad Existe un fundamento histórico que avale la reivindicación del estado catalán Cúmul ha sido el verdadero papel de la lengua catalana a lo largo de los siglos Cabe reconocer una base real al supuesto enfrentamiento secular entre catalanes y castellanos Ha sido siempre la se era el símbolo de todos los que se identifican con el catalanismo o tan solo un elemento del que se apropió el sector más conservador de la sociedad catalana

National History and New Nationalism in the Twenty-First Century Niels F. May,Thomas Maissen,2021-06-17 National history has once again become a battlefield In internal political conflicts which are fought on the terrain of popular culture museums schoolbooks and memorial politics it has taken on a newly important and contested role Irrespective of national specifics the narratives of new nationalism are quite similar everywhere National history is said to stretch back many centuries expressing the historical continuity of a homogeneous people and its timeless character This people struggles for independence guided by towering leaders and inspired by the sacrifice of martyrs Unlike earlier forms of nationalism the main enemies are no longer neighbouring states but international and supranational institutions To use national history as an integrative tool new nationalists claim that the media and school history curricula should not contest or question the nation and its great historical deeds as doubts threaten to weaken and dishonour the nation This book offers a broad international overview of the rhetoric contents and contexts of the rise of these renewed national historical narratives and of how professional historians have reacted to these phenomena The contributions focus on a wide range of representative nations from around all over the globe
