Fakes, Forgeries, and

Frauds Nancy Moses, 2020-02-15 A fascinating read about fakes forgeries and frauds What s real What s fake Why do we care In this time of false news and fake science these questions are more important than ever *Fakes Forgeries and Frauds* goes beyond the headlines tweets and blogs to explore the true nature of authenticity and why it means so much today This book delivers nine fascinating true stories that introduce the fakers forgers art authenticators and others that populate this dark world Examples include Shakespeare How an enterprising teenager in the 1790s faked Shakespeare and duped Literary London Rembrandt How art history connoisseurship and science are re shaping our view of what Rembrandt painted and how the canvas changed over time Relics Was Saint Cecilia the patron saint of music a real Roman teenager who was martyred 1 800 years ago in the same place where her church stands today Jackson Pollock How do experts pick out the real

Pollocks from the thousands of fakes Nuremberg How repeated reconstructions of medieval Nuremberg including one by Adolf Hitler show how historic preservation became a tool for propaganda Fakes Forgeries and Frauds also raises provocative questions about the meaning of reality What happens when spiritual truth conflicts with historic fact Can an object retain its essence when most of it was replaced Why did some art patrons value an excellent copy more than the original Why do we find fakes so eternally fascinating and forgers such appealing con artists Fakes Forgeries and Frauds is a full color book with 30 color photos It shows that reality exemplified by discrete physical objects is actually mutable unsettling and plainly weird Readers discover things that are less than meets the eye and might even reconsider what's real what's fake and why they should care

The Rescuers Nancy Moses, 2025-02-04 This book profiles some of the handful of people who rescued significant cultural treasures that would or may have been otherwise lost to humankind Some like Dr Assad were on a noble mission but that is not always the case Some are motivated by profit fame gratitude or personal advancement The act of rescue may not be straightforward even the most heroic ones can be tainted suspect illegal or ethically equivocal The ten stories in The Rescuers include a variety of objects motivations locations and historic periods They include a Scottish prehistoric site Soviet era seed banking mid 20th century photographic masterworks African American and immigrant folk music Alaskan Native ceremonial and cultural objects and a German language Czech author whose manuscripts now reside in an Israeli archive While each is a unique story it is also representative of similar cases Chapters explore some of the most controversial issues facing society today appropriation repatriation indigenous rights copyright law racism and the impact of tourism on fragile cultural sites What does the act of rescue mean What is the psychology of those who commit these acts Should the imperatives of society trump the rights of individuals to control their own legacy Is more ethical for a museum to preserve cultural treasures or to return them to a tribe that might destroy them What are the trade offs between economic development and historic preservation These are the conundrums of today the

challenges of the future The stories included cover The Monuments Officers recovery of cultural treasures stolen by Nazis The saving of Skara Brae in Scotland by the Laird of Breckness The rescue of the Iraqi Jewish Archive by Harold Rhode and Doris Hamburg Tom Cade s preservation of Peregrine falcons Louis Shotridge and George B Gordon s saving of Alaska s Tlingit culture The preservation of American folk songs by John Lomax

Art, Science, and the Politics of Knowledge

Hannah Star Rogers, 2022-05-17 How the tools of STS can be used to understand art and science and the practices of these knowledge making communities In Art Science and the Politics of Knowledge Hannah Star Rogers suggests that art and science are not as different from each other as we might assume She shows how the tools of science and technology studies STS can be applied to artistic practice offering new ways of thinking about people and objects that have largely fallen outside the scope of STS research Arguing that the categories of art and science are labels with specific powers to order social worlds and that art and science are best understood as networks that produce knowledge Rogers shows through a series of cases the similarities and overlapping practices of these knowledge communities The cases which range from nineteenth century artisans to contemporary bioartists illustrate how art can provide the basis for a new subdiscipline called art science and technology studies ASTS offering hybrid tools for investigating art science collaborations Rogers s subjects include the work of father and son glassblowers the Blaschkas whose glass models produced in the nineteenth century for use in biological classification are now displayed as works of art the physics photographs of documentary photographer Berenice Abbott and a bioart lab that produces work functioning as both artwork and scientific output Finally Rogers an STS scholar and contemporary art science curator draws on her own work to consider the concept of curation as a form of critical analysis

A History of the Medicines We Take Anthony C. Cartwright, N Anthony Armstrong, 2020-04-30 A fascinating account of poultices pills and prescriptions over the centuries and how they ve been developed and delivered This lively account follows the development of medicines from traces of herbs found with the remains of Neanderthal man to prescriptions written on clay tablets from Mesopotamia in the third millennium BC to pure drugs extracted from plants in the nineteenth century and to the latest biotechnology antibody products In addition it tells the stories behind historical figures in medicine such as Christopher Wren who gave the first intravenous injection in 1656 and William Brockedon who invented the tablet in 1843 as well as recounting the changes in patterns of prescribing from simple dosage forms such as liquid mixtures pills ointments lotions poultices powders for treating wounds inhalations eye drops enemas pessaries and suppositories mentioned in the Egyptian Ebers papyrus of 1550 BCE to the complex tablets injections and inhalers in current use A typical pharmacy now dispenses about as many prescriptions in a working day as a mid nineteenth century chemist did in a whole year This history sheds light on the scientific progress made over centuries that led to the medical miracles of the modern world
