Human Anatomy and Physiology

Part I: July 13th, AM

1. **What should Henry do to save Mark? What caused Mark's weakness, nausea, disorientation, headache, and low blood pressure? Why isn't he sweating?**
 - a. Henry should attempt to get Mark in shade, remove extra clothes, and cool him with cool water. Feeling weak, nausea, disorientation, headaches, and low blood pressure are all symptoms of a heat stroke. Mark suffered a heat stroke because he was in a temperature above 104 Fahrenheit for a prolonged amount of time. Mark isn't sweating because his body is so dehydrated that it ran out of water to sweat and body's cooling system stopped working because his body temperature has risen very high in a short amount of time.

Part II: July 13th, PM

2. **Why didn't the paramedic give Mark distilled water rather than an electrolyte/glucose solution?**
 - a. The paramedic didn't give Mark distilled water because distilled water would not rehydrate and provide energy like the electrolyte and glucose solution would.
3. **Why did Mark become disorientated? How would you test your ideas to see if you are right? What do you think based on the information in the text?**
 - a. Mark became disorientated because his blood pressure was low, due to dehydration, which meant that his brain was not getting the needed amount of blood pumped to it. To test my idea I could test the mental capabilities of people with different blood pressure.

Part III: Subsequent Months

4. **What should Mark be concerned with regarding these moles? He talked to dermatologist Dr. Charles Culp about the moles. What tests might Dr. Culp conduct after removing the moles?**
 - a. The moles could be cancerous (especially because he had a first degree burn). Dr. Culp should conduct a biopsy on the removed moles.

with a melee of death scene rehashes all of them suspicious the first portrayed Alexander dying silent and intestate he was Homeric and vocal in the second the third detailed his Last Will and Testament though it is attached to the stuff of romance Which account do we trust In Search Of The Lost Testament Of Alexander The Great is the result of a decade of contemplations on Alexander presented as a rich thematic narrative Grant describes as the backstory behind the history of the great Macedonian and his generals Taking an uncompromising investigative perspective Grant delves into the challenges faced by Alexander s unique tale the forgeries and biased historians the influences of rhetoric romance philosophy and religion on what was written and how Alexander s own mercurial personality is vividly dissected and the careers and the wars of his successors are presented with a unique eye But the book never loses sight of central aim to unravel the mystery behind Alexander s unconvincingly reported intestate death And out of Grant s research emerges one unavoidable verdict after 2 340 years the Last Will and Testament of Alexander III of Macedonia needs to be extracted from romance and reinstated to its rightful place in mainstream history Babylon in June 323 BCE Although the result a decade of academic research In Search Of The Lost Testament Of Alexander The Great is written in an entertaining and engaging style that opens the subject to both scholars and the casual reader of history looking to learn more about the Macedonian king and the men who made his story It concludes with a wholly new interpretation of the death of Alexander the Great and the mechanism behind the wars of succession that followed
