The American Paradox David G. Myers,2008-10-01 DIVFor Americans entering the twenty first century it is the best of times and the worst of times Material

wealth is at record levels yet disturbing social problems reflect a deep spiritual poverty In this compelling book well known social psychologist David G Myers asks how this paradox has come to be and more important how we can spark social renewal and dream a new American dream Myers explores the research on social ills from the 1960s through the 1990s and concludes that the materialism and radical individualism of this period have cost us dearly imperiling our children corroding general civility and diminishing our happiness However in the voices of public figures and ordinary citizens he now hears a spirit of optimism The national dialogue is shifting away from the expansion of personal rights and toward enhancement of communal civility away from efforts to raise self esteem and toward attempts to arouse social responsibility away from whose values and toward our values Myers analyzes in detail the research on educational and other programs that deal with social problems explaining which seem to work and why He then offers positive and well reasoned advice suggesting that a renewed social ecology for America will rest on policies that balance me thinking with we thinking div *The Paradox of Tar Heel Politics* Rob Christensen,2010-10-04 How can a state be represented by Jesse Helms and John Edwards at the same time Journalist Rob Christensen answers that question and navigates a century of political history in North Carolina one of the most politically vibrant and competitive southern states where neither conservatives nor liberals Democrats nor Republicans have been able to rest easy It is this climate of competition and challenge Christensen argues that enabled North Carolina to rise from poverty in the nineteenth century to become a leader in research education and banking in the twentieth In this new paperback edition Christensen provides updated coverage of recent changes in North Carolina s political landscape including the scandals surrounding John Edwards and Mike Easley the defeat of U S senator Elizabeth Dole the election of the state s first woman governor and voters approval of an African American candidate for president The book provides an overview of the run up to the 2010 elections and explains how North Carolina has become arguably the most politically competitive state in the South **Handbook of Interpersonal Commitment and Relationship Stability** Jeffrey M. Adams,Warren H. Jones,1999-09-30 A fundamental assumption underlying the formation of our most important relationships is that they will persist indefinitely into the future As an acquaintanceship turns into a friendship for example both members of this newly formed interpersonal bond are likely to expect that their interactions will become increasingly frequent diverse and intimate over time This expectation is perhaps most apparent in romantically involved couples who through a variety of verbal and symbolic means make explicit pledges to a long lasting relationship In either case it is clear that these relationships represent something valuable to the individuals involved and are pursued with great enthusiasm Virtually all close relationships are formed within the context of mutually rewarding interactions and or strong physical attraction between partners Friends and romantically involved couples alike are drawn to one another because of similarity of attitudes interests and personality and quite simply because they enjoy one another s company This enjoyment coupled with the novelty that characterizes new relationships almost makes the continuation of the relationship a foregone conclusion As

relationships progress however their novelty fades conflicts may arise between partners negative life events may occur and the satisfaction that previously characterized the relationships may diminish
