Triumph of Love PRAVIR MALIK,2020-04-04 Broadly speaking transhumanism refers to a philosophy whose focus is to move beyond current human limits This book suggests an approach to transhumanism based on a perception of Light elaborated in the previous nine books in the Cosmology of Light book series In this perception light is envisioned as existing at different constant speeds We know that in our physical universe light travels at a constant speed referred to as c of 186 000 miles per second This has a concrete bearing on how we experience time and space and on how matter arises and in a Cosmology of Light it can be said that light at c is an intentionality to filter infinite potentiality from Light s native state of traveling infinitely fast so life can arise in a particular way So imagine light traveling infinitely fast This would suggest another reality packed with infinite possibility due to Light s omnipresence omnipotence omniscience and omninurturing fourfoldness Omnipresence because Light would be instantaneously present in whatever volume considered Omnipotence because anything not of the nature of light will be overcome by it Omniscience because light being everywhere will know what arises or disappears in it Omninurturing because all would exist in one nature and be bound by it As the previous books have elaborated and as this book will adequately summarize a cosmology arises when we consider the simultaneous and interpenetrating realities created when Light exists at multiple constant speeds simultaneously The dynamics and information resident in each of these simultaneous realities is arbitrated into material reality through a constant and persistent quantum level computation that generates genetic type information that effectively becomes law Quanta in such a cosmology is perceived as being the mechanism by which information in faster moving layers of light is materialized in a slower moving layer of light Law manifests as quadrumvirate mechanisms such as

space time energy gravity the electro magnetic wave archetype mass potential spectrum quark lepton boson Higgs boson particles s shell p shell d shell f shell atoms nucleic acid lipid protein polysaccharide cells amongst other mechanisms that derive their ability to become based on the native being of Light s omnipresent omnipotent omniscient omninurturing fourfoldness It may even be said that such becomings resulting in quadrumvirate based law reveal essential beings Hence a being or a particular kind of taxonomic classification akin to the species genus family order class phylum kingdom domain as in the hierarchy of life is revealed with successful becoming Plate 1 that follows shortly summarizes such a classification by way of a contemplative map of being Hence Light in its native state traveling with infinite speed may be thought of as sitting at the top of such a taxonomic hierarchy generating light based domains kingdoms phyla classes and so on But such fourfoldness that manifests as effective law or through the becoming involving persistent quantum level computation that reveals a being is none other than a triumph of love For it is only the power of love of that innate need to maintain the integrality of light s fourfoldness even as it continues to materialize that can be the foundation of a sustainable becoming The more powerful such love so that in any materialization there is integration not only of the fourfoldness of Light s implicit properties but also of an integration of the many layers of light existing at different speeds the more fully will a becoming be founded on completeness of potentiality in light to itself become a being capable of engendering light based life Hence as will be suggested in this book not only does a particular type of being engender vast variation within that type but further beings can combine with beings which is essentially an act of love to create more comprehensive beings resulting in all the complexity of life Life itself will be seen to originate in the native state of Light adding function and variation as light precipitates into more and more material reality emerging as a fullness of life At the base of all possible variation and advancement in being becoming and life is the ability to influence the process of the persistent quantum level computation so that there is a more complete horizontal and vertical integration of Light a more complete light based singularity as it were and therefore of the output of genetic type information and consequently of laws that are active in a being s becoming This is what is considered to be the basis of a system or framework of transhumanism in a cosmology of light *'Growth in the knowledge of our Lord', meditations, adapted by a 'daughter of the Cross' Charles Michel A. de Brandt, 1890* **Triumph of Love Illustrated - Part II** Pravir Malik, 2025-07-14 Part II From Quantum Seeds to the Second Singularity After EM WAMP the same iterative generator equation yields successive P type beings quantum particles atoms molecules cells and ultimately the human P type Each step adds complexity by combining information from faster than light layers with the finite physical layer At the human stage faculties such as urge will emotion and thought open quantum windows into FBLEE the Four Base Logic Encoding Ecosystem that stores pre genetic instructions Constructive mutations which integrate additional super luminal information update FBLEE and DNA alike destructive mutations which align with the zero speed 0 type layer remain local and do not alter foundational logic Continued constructive integration leads to super matter based P type beings and

large scale entities stable mega organizations and a sustainable global civilization whose codes currently exist only in FBLEE Their eventual materialization accelerates universal expansion a candidate explanation for dark energy and prepares the way for the Second Singularity or S type being where fourfold functionality becomes fully conscious and horizontally as well as vertically integrated In contrast derivative D type beings technologies built on fragmented finite information sets can extend capability but cannot match the coherence or longevity of S type evolution The book s second half maps these possibilities outlining how persistent quantum level computation may steer humanity and the cosmos toward or away from that ultimate integrative state

The Evolution of Love Emory Miller,1907 *Law of Love & the Mathematics of Spirituality* Raju Sitaram Chidambaram,2011-11-21 In the Bhagavad Gita Lord has thus ordained ye yatha mam prapadyante tanstathaiva bhajamyaha mama vartmanuvartante manu ya partha sarvasa Tr The way they approach me I too approach them in the same reciprocating manner O Partha all human beings follow paths leading to me To the seers of the Rigveda the Brahma revealed Itself in the form of Rcs to the saints as all powerful deities manifesting in different forms to the philosophers as dual existence dealt in the sankhya philosophy while to a mathematician It is manifested in the form of mathematical equations Dr Chidambarams work ushers readers into the mathematical landscape of spirituality It is simple enough to understand with some basic knowledge of mathematics It will pave way for coming generations of mathematicians to chart novel ways to understand the Ultimate reality the Supreme Brahman through mathematics as laid down here Dr Pramod Pathak Author and Indologist Panaji Goa

Love Sorin Cerin,2012-08-20 The soul mate is what we aspire to and like to understand about us is what we deem to be perfection purity and endless regarding our own being Paradoxically all these wonderful dimensions that we want for our being are completely missing being a hope a dream about the perfection of the being Then this hope and dream of perfection is materialized in the vision we have on our soul mate Moreover if we are under the impression that we know what we would want as perfection it always remains a mere false impression and nothing more because then the event of a Great Love occurs we realize that what we thought to be perfection is false and the novelty of the new imagine on the perfection embodies by the lover makes us feel that intense feeling of suffocating love precisely because we find our new standard for perfection which becomes this way superior to the old one All these can happen when the two souls are not soul mates What are the so often invoked soul mates Does such a thing really exist or is just a fantasy used to attract your partner in one way or another My answer is YES SOULS MATES EXIST

Love Survives Rajiv Kumar Sharma ,2024-12-29 The book is a collection of poems composed by the poet during and after the Covid19 pandemic Like his previous collections the language is simple easy to penetrate yet successful in taking the reader along to a different level of profound thoughts According to the poet these are not poems but stories emerging out of a keen observation of the world around The imperfection in the design of the phenomenon called life remains a revolving source of inspiration to raise questions as a rebel The centrality of love is unmistakably visible in almost all the poems In fact love is given the highest pedestal amidst a

chaotic world and projected as the only remedy for curing everything that is wrong around us Considering that this book completes his trilogy on the theme of love we can simply call him the poet of love **Gesar** ,1993 **Spirit Love** R. Crafton Gibbs,2013-01-14 God s Book of Life is his Logos Word describing the Living God as the Christ Spirit of Jesus in all Christians As God wills it it is able to serve as the book of life mentioned in the Holy Christian Bible Furthermore any volume offer s the Way to the Truth of Life with God by belief in Jesus as the Christ Savior from this world and to Life with God in his Kingdom of Heaven I wrote the ten volume Logos work by the guiding inspiration of Christ the Holy Spirit of Jesus and present it as the experience of Christ in my life Rain Forest Literatures Lúcia Sá,2004 **Angelic Wisdom Concerning the Divine Providence** Emanuel Swedenborg,1912 Be one with God Swami Vivekananda, It may be that I shall find it good to get outside of my body to cast it off like a disused garment But I shall not cease to work I shall inspire men everywhere until the world shall know that it is one with God said Swami Vivekananda during the closing days of his life His idea was to teach unto mankind their divinity and how to make it manifest in every action These two ideas form the core of this book This book contains 1863 quotes of Swami Vivekananda which have been divided into 12 chapters namely 1 Make your own future 2 Struggle Hope 3 Religion God 4 Know yourselves 5 Universality 6 Day to Day guidance 7 The ideal of service 8 Raja Yoga 9 Karma Yoga 10 Bhakti Yoga 11 Jnana Yoga 12 Practical Vedanta The selection of the quotes have been made in such a way that it can be thought about and incorporated into our daily lives **JACOB MARLEY** Vincent Graham,2011-05-23 Not quite Dante s Inferno this is the odious account of Jacob Marley s death A man in total denial of his demise that is until the sound of the soil hits the top of his casket Vince Graham twists this macabre account into the joyous tale of Ebenezer Scrooge and his return to the world of the living This book takes us from the distant past where we fi nd two spirits willing to the near future to discover how the ghost of Marley conjures an apparition who will steer Scrooge off the path of damnation and into a love that is patiently waiting This is a story that ends with a message but only for those who fi nd the way and have learned to let go of their ego
