Sincerity and Other Works Donald Meltzer, 2018-05-30 The author formulates here the existence of an anxiety apparatus whose functioning is a part of the ego and the personality structure and illustrates how in attacking this apparatus the ego is attacking itself An example is given of the workings of the death instinct and a differentiation is made between the ego's defence mechanisms and other pathological character devices **The Democratic Arts of Mourning** Alexander Keller Hirsch, David W. McIvor, 2019-01-21 *The Democratic Arts of Mourning* reflects on the variety of ways in which mourning affects political and social life In recent decades political theorists have increasingly examined and explored the themes of loss grief and mourning With an introduction that contextualizes the turn to mourning in previous scholarship on the politics of tragedy this book includes twelve chapters that clarify the intertwinement between politics and mourning The chapters are organized into five thematic sections that each shed light on how democratic societies relate to loss grief suffering and death Collectively the chapters explore the concept of mourning and its relationship to civic rituals memorials taboos social movements and popular music Chapters examine how social groups defend their members against experiences of grief or

mourning or how poetic expressions such as ancient Greek tragedy can address the catastrophes of human life Other chapters explore the politics of symbols and bodies and how they can become fraught objects that stand in for a society s undigested unmourned losses and absences The book concludes with an interview with Bonnie Honig whose own work on mourning has been deeply influential in contemporary political theory

Love, Hate and Reparation ... New Impression Melanie Klein,1953

The Criminal Law's Person Claes Lernestedt,Matt Matravers,2022-02-10 The state s use of the threat and imposition of punishments to regulate conduct is thought or at least said by many to be legitimised by the idea that the

criminal law's burdens only fall on those who are blameworthy for their conduct. However, the formal concept of blameworthiness needs to be made substantive. This puts various ideas regarding the criminal law's person at the heart of debates about blame, guilt, and responsibility. How is the criminal law's person constructed by whom and with what disciplinary norms? How is it threatened by new knowledge and how do those threats play out amongst the various stakeholders who claim the criminal law's person as theirs? To address these and cognate questions, this volume brings together an international group of academics to engage with the criminal law's person from a range of disciplinary perspectives.

The contributors, who include many of the top names in this field, tackle several wide-ranging projects: they develop an ethics for ordinary life and vulnerable persons; they examine the question of what we ought to do for each other; they highlight the moral significance of inhabiting a shared social world; they reveal the complexities of moral negotiations; and finally, they show us the place of emotion in moral life.

The Klein-Winnicott Dialectic Susan Kavalier-Adler, 2018-05-01 *The Klein-Winnicott Dialectic: Transformative New Metapsychology and Interactive Clinical Theory* brings together the theories of Melanie Klein and Donald W Winnicott, two giants and geniuses of the British school of object relations, clinical and developmental theory, and psychoanalytic technique. In this book, the author attempts to integrate the theories of Klein and Winnicott rather than polarising them as has been done often in the past. This book takes the best of Klein and Winnicott for use by clinicians on an everyday basis without having the disputes between their followers.

interfere with the full and rich platter of theoretical offerings they each of them provided In addition this book looks at the biographies of Klein and Winnicott to show how their theories were inspired by their contrasting lives and contrasting parenting and developmental dynamics By examining their theories in relation to their biographies one can see why their dialectical theoretical focuses emerged highly contrasted in their major emphasis and yet highly complementary when applied together to clinical work
