Loving God With Your Mind Essays In Honor Of J P Moreland:

Loving God with Your Mind Paul Gould, Richard Brian Davis, 2013-12-18 Over the past twenty five years no one has done more than J P Moreland to equip Christians to love God with their minds In his work as a Christian philosopher scholar and apologist he has influenced thousands of students written groundbreaking books and taught multitudes of Christians to defend their faith In honor of Moreland s ministry general editors Paul M Gould and Richard Brian Davis have assembled a team of friends and colleagues to celebrate his work In three major parts devoted to philosophy apologetics and spiritual formation scholars such as Stewart Goetz Paul Copan Douglas Groothuis Scott Rae and Klaus Issler interact with Moreland s thought and make their own contributions to these important subjects Moreland concludes the volume with his own essay *Reflections on the Journey Ahead*

The Soul J. P. Moreland, 2014-02-14 In a culture in which science is believed to hold the answers to every question spiritual realities like the soul are often ignored or ridiculed We are told that neuroscience holds the key to explaining every aspect of human behavior Yet Christian philosopher J P Moreland argues that Scripture sound philosophical reasoning and everyday experience all point to the reality of an immaterial soul Countering the arguments of both naturalists and Christian scholars who embrace a material only view of humanity Moreland demonstrates why it is both biblical and reasonable to believe humans are essentially spiritual beings He also describes the various components of the soul and how Christians can nurture their souls as disciples of Christ Moreland shows that neuroscience and the soul are not competing explanations of human activity but that both coexist and influence one another

The Blackwell Companion to Substance Dualism Jonathan J. Loose, Angus J. L. Menuge, J. P. Moreland, 2018-03-13

THE BLACKWELL COMPANION TO SUBSTANCE DUALISM This is a terrific volume by a long way the best currently available anthology on dualism and a worthy addition to Blackwell's distinguished series of Companions

Tim Crane Central European University A major contribution to an ongoing transformation of analytic philosophy of mind

Howard Robinson Central European University This high quality volume offers a rich variety of perspectives on substance dualism and will be a valuable resource for students and researchers in philosophy of mind and philosophy of religion

John Cottingham University of Reading Thorough and fair the quality of the essays is high This will certainly be the book on substance dualism

Michael Tye University of Texas at Austin Substance dualism has for some time been dismissed as an archaic and defeated position in philosophy of mind but in recent years the topic has experienced a resurgence of scholarly interest and has been restored to contemporary prominence by a growing minority of philosophers prepared to interrogate the core principles upon which past objections and misunderstandings rest

As the first book of its kind to bring together a collection of contemporary writing from top proponents and critics in a pro contra format the Blackwell Companion to Substance Dualism captures this ongoing dialogue and sets the stage for rigorous and lively discourse around dualist and physicalist accounts of human persons in philosophy

Chapters explore emergent Thomistic Cartesian and other forms of substance dualism broadly conceived in dialogue with leading varieties of physicalism including animalism non reductive physicalism and constitution theory

Loose Menuge and Moreland pair essays from dualist advocates with astute criticism from physicalist opponents and vice versa highlighting points of contrast for readers in thematic sections while showcasing today's leading minds engaged in direct debate

Taken together essays provide nuanced paths of introduction for students and capture the imagination of professional philosophers looking to expand their understanding of the subject

Skillfully curated and in touch with contemporary science as well as analytic theology the Blackwell Companion to Substance Dualism strikes a measured balanced between advocacy and criticism and is a first rate resource for researchers scholars and students of philosophy theology and neuroscience
