Preach the Word Myles MacBean, 2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner

book makes an important contribution to the quest to correct misconceptions and misrepresentations by Eurocentric thinkers and practitioners about African indigenous knowledges The book makes an informed claim that the future and vibrancy of African indigenous knowledge and practices lie in how well scholars of knowledge studies and decoloniality in and on Africa are able to join hands in articulating debating and fronting their vitality and relevance in varied real life situations More importantly the book provides a re invigorated overview and nuanced analyses of the important role and continued relevance of African IKS and practices in the understanding interpreting and tackling of the social unfoldings of everyday life and dynamism Without romanticising African IKS and practices the book provides added insights and pointers on policy and trends It is an important addition to critical debates on knowledge studies across fields Neoliberalism, Nordic Welfare States and Social Work Masoud Kamali, Jessica Jönsson, 2018-04-17 How have three decades of neoliberalism affected the Nordic welfare states as well as the organisation education and practices of social work in those countries During recent decades the welfare states of Denmark Finland Norway and Sweden have gone through dramatic changes influenced by the political triumph of neoliberalism This has led to both the electoral success of extreme right and mainstream neoliberal parties and to the neoliberal ideological transformations of social democratic parties The neoliberal doctrine of making governance cheaper has thus been made the focus of governance and has led to increased marginalisation and social problems This is the first book to comparatively explore the role of neoliberal reforms on social work and social policy across the Nordic welfare states The richly theoretical and empirical chapters explore and illustrate the consequences of the dominance of neoliberal policies and provide an analysis of the effects of globalisation glocalisation welfare nationalism symbolic violence and forced migration The book provides valuable insights into the shortcomings of retreating welfare states in a time of increasing glocal social problems Neoliberalism Nordic Welfare States and Social Work should be considered essential reading for critical social work education Students scholars educators and researchers of Nordic countries and beyond have much to learn from this book Epilepsy Management in African Society Ngonidzashe Mutanana, 2024-10-15 The majority of Africans have refused to accept the Western definition of epilepsy or causes of epilepsy To this end they have chosen the traditional mode in dealing with epilepsy In this book the author explores the various indigenous health seeking behaviours of people with epilepsy in Africa and there are some specific case studies in Zimbabwe a country located within the southern region of Africa These cases studies clearly show the perceptions attitudes and knowledge of Africans towards anti epilepsy medication lived experiences of Africans on anti epilepsy medication indigenous practices in epilepsy management and perceptions of Africans towards the effectiveness of indigenous health seeking behaviours on epilepsy management Finally the researcher proffers a model that he thinks will assist towards the management of epilepsy that encompasses both traditional and western medications This book also explores the sustainability of epilepsy management within the context of indigenous health practices the use of complementary or

Mobility as Capability Nikhila Menon, 2021-09-30 This book highlights accounts of women workers to capture the domains of gendered mobility which challenges the exalted status conferred on women in the Kerala model of development. It contests and deconstructs the development discourse which considers women's work mobility as an indicator of autonomy and agency using the Capability Approach. The concept of transformational mobility and its measurement introduced in the book advances the understanding of mobility autonomy and agency and the intersectionality in the context of gender and work. Through an in-depth exploration of lived experiences of informal women workers, the author illustrates how patriarchal structures are shaped and reinforced by work places, markets and the state. The central question is: can we steer development policies to facilitate collective capabilities for women where informal work arrangements are becoming the norm?

Therapeutic Keys to Self-Actualization in Homer's Demeter Lindy McMullin, 2019-01-15 This book is the result of a study that investigated the effects that myth in sacred text may have on personal, professional and transpersonal development. To ensure maximum impact in terms of imagery enhancing properties, Homer's Hymn to Demeter was read accompanied by lyre music in a therapeutic setting and the resulting experiences examined. The author, a clinician as well as researcher, succeeds in extracting personal epiphanies that have the potential to change perceptions and contribute to a healing process. This book is a courageous and novel attempt to integrate ancient wisdom with modern scientific inquiry that honours all levels, states and structures of consciousness within both the researcher and the study's participants. It documents the deep inner preparatory work the author undertook prior to executing the study to situate herself in the historical context and prepare her psyche at a fundamental level to as authentically as possible receive the data, perceptions and experiences from participants. Skill and creativity are also apparent with regard to the nuanced, sophisticated manner of data collection and analysis, not only with words but with accompanying drawings that depict the data in a unique manner that illuminates the many ways of knowing and expressing understanding. Moreover, the inclusion of a glossary helps navigate the reader through a delightfully rich and full experience. Throughout the text, the focus of the inquiry investigating the application of ancient Greek myth and music in personal, professional and transpersonal development is reinforced. This work portrays a deep respect for the many ways of knowing inherent in the human species, calling for a revision of sacred script and its benefits in education and psychology. This book is sure to appeal to scholars, clinicians and educators as well as the educated lay reader.
