 Psychiatry* ,2002 *Evidence-Based Group Work in Community Settings* David E. Pollio, Mark J. Macgowan, 2013-09-13
 There has been a strong recent trend towards incorporating evidence into Social Work practice in general and into group
 work in particular This trend has focused on the education of students in the use of evidence development of evidence based
 interventions and discussion of how evidence can be used to improve practice A limitation of most of this literature is that it
 has been written by researchers for the consumption of practitioners limiting the ability of evidence based practices to be
 incorporated into unique community settings and with specific populations In spite of this difficulty implementation of
 evidence based practices continues quietly in practice settings This book describes efforts to integrate evidence into
 community settings which have two foci The first part details group models developed through collaborations between
 researchers and community agencies Each chapter details efforts to implement research or review programs in community
 settings The second part deals with issues around instruction and dissemination of evidence based group work into practice
 settings The volume makes a significant contribution to the discussion about evidence based group work This book was
 published as a special issue of Social Work with Groups Addictions : Prévenir la rechute Caroline Chiron, Estelle
