The Garden ,2001 **Passion's Fictions from Shakespeare to Richardson** Benedict S. Robinson,2021-05-27 *Passion's Fictions* traces the intimate links between literature and the sciences of mind and soul from the age of Shakespeare to the rise of the novel It chronicles the emergence of new sciences of the passions between the sixteenth and eighteenth centuries and it argues that this history was shaped by rhetoric that contained the most extensively particularized discourse on the passions offering principles for moving and affecting the passions of others in concrete social scenes This rhetoric of the passions centered on narrative as the instrument of a non theoretical knowledge of the passions in their particularity predicated on an account of passion as an intimate relation between an impassioned mind and an impassioning world rhetoric offers a kind of externalist psychology formalized in the relation of passion to action and underwriting an account of narrative as a means of both moving passion and knowing it This volume describes the psychology of the passions before the discipline of psychology tracing the influence of rhetoric on theories of the passions from Francis Bacon to Adam Smith and using that history to read literary works by Shakespeare Milton Haywood Richardson and others Narrative offers a means of knowing and moving the passions by tracing them to the events and objects that generate them the history of narrative practices is thus a key part of the history of the psychology of the passions at a critical moment in its development The Wisdom of the Enlightenment Michael K. Kellogg,2022-02-15 *Enlightenment* Aufkl rung in German Lumi res in French is more an idea than a period But it is an idea that took hold in a particular historical context of revolutionary scientific advances increasing economic and social freedom rising literacy and prosperity and a greater willingness to challenge the authoritarianism of the seventeenth and eighteenth centuries In *The Wisdom of the Enlightenment* author Michael K Kellogg points to 1637 the year that gave us Rene Descartes landmark inquiry into truth as the beginning of a period that radically changed individual human thought and collective societal action From Descartes assertion of I think therefore I am to the philosophies of Enlightenment thinkers like Moliere Spinoza Voltaire Hume and Kant this book charts the new and revolutionary philosophies at a time when progress seemed possible across the whole range of human knowledge and endeavor In sweeping aside tired superstitions and applying a new scientific methodology the Enlightenment ideas of progress through free exercise of reason ushered us into the modern world This engaging and comprehensive survey of Enlightenment thoughts and thinkers is a celebration of the faith that all problems are solvable by human reason **A History of Russian Literature** Andrew Kahn,Mark Naumovich Lipovet[s]kiĭ,Irina Reyfman,Stephanie Sandler,2018 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century *A History of Russian Literature* provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day still rife with the creative experiments of post Soviet literary life The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day The coverage strikes a balance

between extensive overview and in depth thematic focus Parts are organized thematically in chapters which a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular bring out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about Russia s literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation
