Buddhism Across Asia Tansen Sen, 2014-04-02 Buddhism across Asia is a must read for anyone interested in the history and spread of Buddhism in Asia. It comprises a rich collection of articles written by leading experts in their fields. Together the contributions provide an in-depth analysis of Buddhist history and transmission in Asia over a period of more than 2000 years. Aspects examined include material culture, politics, economy, languages and texts, religious institutions, practices and rituals, conceptualisations and philosophy, while the geographic scope of the studies extends from India to Southeast Asia and East Asia. Readers' knowledge of Buddhism is constantly challenged by the studies presented, incorporating new materials and interpretations. Rejecting the concept of a reified monolithic and timeless Buddhism, this publication reflects the entangled, dynamic and multi-dimensional history of Buddhism in Asia over extended periods of integration, development of multiple centres and European expansion, which shaped the religion's regional and trans-regional identities. Max Deeg, Cardiff University. Buddhism Across Asia presents new research on Buddhism in comprehensive spatial and temporal terms. From studies on transmission networks to exegesis on doctrinal matters, linguistics, rituals and practices, institutions, Buddhist libraries and the religion's interactions with political and cultural spheres, as well as the society at large, the volume presents an assemblage of essays of breathtaking breadth and depth. The goal is to demonstrate how the transmission of Buddhist ideas serves as a cultural force, a lynchpin that had connected the societies of Asia from past to present. The volume manifests the vitality and maturity of the field of Buddhist studies, and for that we thank the editor and the erudite authors. Dorothy C Wong, University of Virginia. *The Virgin Mary and Catholic Identities in Chinese History* Jeremy Clarke, 2013-08-01 The Chinese Catholic Church traces its living roots back to the late sixteenth century and its historical roots back even further to the Yuan dynasty. This book explores paintings and sculptures of the Virgin Mary and the communities that produced them over several centuries. It argues for the emergence of distinctly Chinese Catholic identities as artistic representations of the Virgin Mary at different times and in different places, absorbed and in turn influenced representations of Chinese figures from Guanyin to the Empress Dowager. At other times, indigenous styles have been diluted by Western influences following the influx of European missionaries in the nineteenth century, for example, or with globalization in recent years. The book engages with history, theology and art and draws on imagery and archival photographs that have been largely neglected. As a study of the social and cultural histories of communities that have survived over many centuries, this book offers a new view of Catholicism in China, one that sees its history as more than simply a cycle of persecution and resistance. Fr. Jeremy Clarke SJ is an Australian Province Jesuit, teaching as an assistant professor in the History Department of Boston College. He is also a school visitor in the Australian Center for China in the World at the Australian National University, Canberra. **Newsletter, East Asian Art and Archaeology**, 1994. **The Oxford Handbook of Christianity in Asia** Felix Wilfred, 2014-05-23.
