**Warfare in Medieval Brabant, 1356-1406** Sergio Boffa, 2004 An account of the causes combatants and course of events in the successive conflicts which troubled the duchy for half a century The medieval duchy of Brabant was one of the most powerful principalities of the Low Countries During the second half of the fourteenth century it underwent a particularly dramatic period in its history the House of Leuven was on the point of disappearance the duchy was coveted by Philip the Bold of Burgundy who was already dreaming of extending the Burgundian Empire and by a network of alliances Brabant was drawn into the Hundred Years War The author reviews the successive conflicts which troubled the duchy between 1356 and 1406 the different authorities which influenced the course of military operations the duchess and the duke their officers and the Estates of Brabant describes the combatants in particular the nobility and the urban militias considers the practical aspects of warfare and analyses the military obligations and contracts which bound the men at arms to the duke SERGIO BOFFA is currently researching in the department of Maps and Plans Bibliotheque Royale de Belgique Brussels

**Précis de l'histoire de France, avec des notes explicatives en anglais** Alcée Fortier, 1899 , **War and Competition between States** Philippe Contamine, 2000-11-23 In the five hundred years covered by this volume there was scarcely a year which passed without either war or some open demonstration of hostility between the many sovereign powers which governed Europe States and peoples lived under the shadow of war were ceaselessly prompted to consider the possibility of war had to find ways of dealing with the consequences of war This volume in the Origins of the Modern State in Europe series focuses on the crucial role of war in the formation of state systems It starts from the assumption that interstate rivalries and conflicts were at the heart not only of the demarcation of territories but also of the ever growing need to mobilize resources for warfare Institutionalization was consequently highly dependent on such competition It was for military reasons and with military aims that the state secured control of time and space both at sea and on land The Origins of the Modern State in Europe series arises from an important international research programme sponsored by the European Science Foundation The aim of the series which comprises seven volumes is to bring together specialists from different countries who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders **A Cumulative Bibliography of Medieval Military History and**

**Technology** Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of

the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense **The Hundred**

**Years War, Volume 1** Jonathan Sumption,1999-09-29 What history records as the Hundred Years War was in fact a succession of destructive conflicts separated by tense intervals of truce and dishonest and impermanent peace treaties and one of the central events in the history of England and France It laid the foundations of France s national consciousness even while destroying the prosperity and political preeminence which France had once enjoyed It formed the nation s institutions creating the germ of the absolute state of the seventeenth and eighteenth centuries In England it brought intense effort and suffering a powerful tide of patriotism great fortune succeeded by bankruptcy disintegration and utter defeat The war also brought turmoil and ruin to neighboring Scotland Germany Italy and Spain **The Hundred Years War, Volume 4** Jonathan Sumption,2015-09-04 The eagerly anticipated fourth volume of Jonathan Sumption s prize winning history of the Hundred Years War *The Hundred Years War, Volume 2* Jonathan Sumption,1991 Covers the period from the Truce of Calais in 1347 to the 1367 victory at Najera and its aftermath Chivalry and the Ideals of Knighthood in France During the Hundred Years War Craig Taylor,2013-10-10 Craig Taylor examines French debates on the martial ideals of chivalry and knighthood during the Hundred Years War Medieval Warfare Maurice Hugh Keen,2001 The New Cambridge Medieval History: Volume 6, C.1300-c.1415 Rosamond McKitterick,1995 The sixth volume of The New Cambridge Medieval History covers the fourteenth century a period dominated by plague other natural disasters and war which brought to an end three centuries of economic growth and cultural expansion in Christian Europe but one which also saw important developments in government religious and intellectual life and new cultural and artistic patterns Part I sets the scene by discussion of general themes in the theory and practice of government religion social and economic history and culture Part II deals with the individual histories of the states of western Europe Part III with that of the Church at the time of the Avignon papacy and the Great Schism and Part IV with eastern and northern Europe Byzantium and the early Ottomans giving particular attention to the

social and economic relations with westerners and those of other civilisations in the Mediterranean **Prisoners of War in the Hundred Years War** Rémy Ambühl, 2013-01-17 The status of prisoners of war was firmly rooted in the practice of ransoming in the Middle Ages By the opening stages of the Hundred Years War ransoming had become widespread among the knightly community and the crown had already begun to exercise tighter control over the practice of war This led to tensions between public and private interests over ransoms and prisoners of war Historians have long emphasised the significance of the French and English crowns interference in the issue of prisoners of war but this original and stimulating study questions whether they have been too influenced by the state centred nature of most surviving sources Based on extensive archival research this book tests customs laws and theory against the individual experiences of captors and prisoners during the Hundred Years War to evoke their world in all its complexity The Hundred Years War Revisited Anne Curry, 2019-08-24 The conflict between England and France in the 14th and 15th centuries never ceases to fascinate This stimulating edited collection inspired by the Problems in Focus volume originally published in 1971 provides a fresh and accessible insight into the key aspects of The Hundred Years War With chapters written by leading experts in the field based on new methodologies and recent advances in scholarship this book places the Anglo French wars into a range of wider contexts such as politics the home front the church and chivalry Adopting a sustained comparative approach with attention paid to both England and France The Hundred Years War Revisited provides a clear and comprehensive synthesis of the major trends in research on the Hundred Years War Concise and thought provoking this is essential reading for undergraduate and postgraduate students of medieval history **Francia, Band 48** Deutsches Historisches Institut Paris, 2021-09-20 Der Band enth lt 36 Beitr ge in deutscher franz sischer und englischer Sprache Die Themenvielfalt reicht von der Fredegarchronik des 7 Jahrhunderts und dem Fortleben des r mischen Rechts im fr hen Mittelalter den Anf ngen diplomatischer Beziehungen und dem Hundertj hrigen Krieg ber die deutsch franz sischen Beziehungen des 17 Jahrhunderts die Eidleistung franz sischer Bisch fe unter Ludwig XIV und die Bibliotheksgeschichte der Fr hen Neuzeit bis zum Pariser Musikleben w hrend der Julimonarchie den Vegetarismus am Vorabend des Ersten Weltkriegs und die aktuelle Genderdebatte in Afrika Mit der Geschichte des K rpers und seiner politischen Rolle am fr hmodernen Hof sowie der B rokratisierung afrikanischer Gesellschaften befassen sich die Beitr ge zweier Ateliers **Medieval Sensibilities** Damien Boquet, Piroska Nagy, 2018-07-26 What do we know of the emotional life of the Middle Ages Though a long neglected subject a multitude of sources spiritual and secular literature iconography chronicles as well as theological and medical works provide clues to the central role emotions played in medieval society In this work historians Damien Boquet and Piroska Nagy delve into a rich variety of texts and images to reveal the many and nuanced experiences of emotion during the Middle Ages from the demonstrative shame of a saint to a nobleman s fear of embarrassment from the enthusiasm of a crusading band to the fear of a town threatened by the approach of war or plague Boquet and Nagy show how these outbursts of joy and pain

while universal expressions must be understood within the specific context of medieval society During the Middle Ages a Christian model of affectivity was formed in the laboratory of the monasteries one which gradually seeped into wider society interacting with the sensibilities of courtly culture and other forms of expression Bouquet and Nagy bring a thousand years of history to life demonstrating how the study of emotions in medieval society can also allow us to understand better our own social outlooks and customs Agrarian Change and Crisis in Europe, 1200-1500 Harilaos Kitsikopoulos,2012-03-15

Agrarian Change and Crisis in Europe 1200 1500 addresses one of the classic subjects on economic history the process of aggregate economic growth and the crisis that engulfed the European continent during the late Middle Ages This was not an ordinary crisis During the period 1200 1500 Europe witnessed endemic episodes of famine and a wave of plague epidemics that amounted to one of its worst health crises rivaled only by the Justinian plague in the sixth century These challenges called into question the production of goods and services and the distribution of wealth opening the possibility of fundamental systemic change This book offers an empirical synthesis on a host of economic demographic and technological developments which characterized the period 1200 1500 It covers virtually the entire continent and places equal emphasis both on providing a solid factual framework and comparing and contrasting various theoretical interpretations The broad geographical and conceptual scope of the book renders it indispensable not only for undergraduate students who take courses relating to the economic and social life of the Middle Ages but also to more advanced scholars who often specialize in only one country or region **Hundred Years War Vol 3** Jonathan Sumption,2011-06-02 Divided Houses is a tale of

contrasting fortunes In the last decade of his reign Edward III a senile pathetic symbol of England's past conquests was condemned to see them overrun by the armies of his enemies When he died in 1377 he was succeeded by a vulnerable child who was destined to grow into a neurotic and unstable adult presiding over a divided nation Meanwhile France entered upon one of the most glittering periods of her medieval history years of power and ceremony astonishing artistic creativity and famous warriors making their reputations as far afield as Naples Hungary and North Africa Contemporaries in both countries believed that they were living through memorable times times of great wickedness and great achievement of collective mediocrity but intense personal heroism of extremes of wealth and poverty fortune and failure At a distance of six centuries as Jonathan Sumption skilfully and meticulously shows it is possible to agree with all of these judgments *Soldiers' Lives through History - The Middle Ages* Clifford J. Rogers,2007-04-30 The most dangerous arms in the world are those of horse and lance because there is no means of stopping them wrote a 15th century commander Jean de Bueil From the fall of the Roman Empire to the end of the 15th century the men and a few women in disguise who reported for military service or who led other men scouted and skirmished plundered and burned If they did not slaughter the peasants they met they took them prisoner to be sold as slaves or ransomed at heavy cost It was a brutal time Rogers illuminates the history of medieval soldiers in wartime and in peacetime describing the lives of those who attacked and those who defended the fortified castles

towns and lands of Europe and beyond in the Middle Age      **Hundred Years War Vol 4** Jonathan Sumption, 2015-08-18  
Cursed Kings tells the story of the destruction of France by the madness of its king and the greed and violence of his family  
In the early fifteenth century France had gone from being the strongest and most populous nation state of medieval Europe  
to suffering a complete internal collapse and a partial conquest by a foreign power It had never happened before in the  
country's history and it would not happen again until 1940 Into the void left by this domestic catastrophe strode one of the  
most remarkable rulers of the age Henry V of England the victor of Agincourt who conquered much of northern France  
before dying at the age of thirty six just two months before he would have become King of France Following on from Divided  
Houses winner of the Wolfson History Prize and shortlisted for the Hessel Tiltman Cursed Kings is the magisterial new  
chapter in one of the great historical works of our time Allan Massie      Walled Towns and the Shaping of France M.  
Wolfe, 2009-08-31 This book focuses on the development of towns in France taking into account military technology physical  
geography shifting regional networks tying urban communities together and the emergence of new forms of public authority  
and civic life
