Perioperative Transesophageal Echocardiography David L. Reich, Gregory Fischer, 2013-09-18 From basic concepts to state of the art techniques Perioperative Transesophageal Echocardiography A Companion to Kaplan s Cardiac Anesthesia helps you master everything you need to know to effectively diagnose and monitor your cardiothoracic surgery patients Comprehensive coverage and unsurpassed visual guidance make this companion to Kaplan s Cardiac Anesthesia a must for anesthesiologists surgeons and nurse anesthetists who need to be proficient in anesthesia care a powerful learning tool Reviewed by JH Rosser and GH Mills Sheffield on behalf of British Journal of Anaesthesia December 2015 Recognize the Transesophageal Echocardiography TEE images you see in practice by comparing them to abundant 2D and 3D images as well as an extensive online library of moving cine images Learn from acknowledged leaders in the field of cardiac anesthesiology Drs David L Reich and Gregory W Fischer See how to address specific clinical situations with detailed case studies and discussions of challenging issues Access the complete contents and videos online at Expert Consult

Evidence Based Treatments for Trauma-Related Psychological Disorders Ulrich Schnyder, Marylène

Cloitre,2022-06-16 The second completely updated edition of this book offers an evidence based guide for clinical psychologists psychiatrists psychotherapists and other clinicians working with trauma survivors in various settings It provides easily digestible up to date information on the basic principles of traumatic stress research and practice including psychological and sociological theories as well as epidemiological psychopathological and neurobiological findings However as therapists are primarily interested in how to best treat their traumatized patients the core focus of the book is on evidence based psychological treatments for trauma related mental disorders The full range of trauma and stress related disorders is covered including Acute Stress Reaction Complex PTSD and Prolonged Grief Disorder reflecting important anticipated developments in diagnostic classification Each of the treatment chapters begins with a short summary of the theoretical underpinnings of the approach presents a case illustrating the treatment protocol addresses special challenges typically encountered in implementing this treatment and ends with an overview of related outcomes and other research findings Additional chapters are devoted to the treatment of comorbidities special populations and special treatment modalities and to pharmacological treatments for trauma related disorders A novel addition is the chapter on Innovative interventions to increase global mental health The book concludes by addressing the fundamental question of how to treat whom and when

Fair Treatment of Persons in Police Custody Ralf Alleweldt,2024-10-16 This book analyses and evaluates the international efforts to ensure the fair and human treatment of persons in police custody Respecting the dignity of all detained persons and in particular preventing torture is a key issue of international human rights protection The authors explore various approaches to tackle this issue including the introduction of investigative non coercive interviewing techniques as well as the implementation of fundamental safeguards such as the access to a lawyer and a doctor Supported by case studies they describe the special role of national preventive mechanisms and the efforts to improve the treatment of detainees in the context of capacity building activities Police components of international peace missions face special legal and practical human rights challenges Authors also ask how the positive potentials and strengths within police organisations could be mobilised for realising human rights and last but not least they seek to assess the prospects of how fair treatment of persons in police custody may be ensured in the future effectively

Computational Systems Pharmacology and Toxicology Rudy J Richardson,Dale E Johnson,2017-03-03 The network approaches of systems pharmacology and toxicology serve as early predictors of the most relevant screening approach to pursue both in drug discovery and development and ecotoxicological assessments Computational approaches have the potential to improve toxicological experimental design enable more rapid drug efficacy and safety testing and also reduce the number of animals used in experimentation Rapid advances in availability of computing technology hold tremendous promise for advancing applied and basic science and increasing the efficiency of risk assessment This book provides an understanding of the basic principles of computational toxicology and the current methods of predictive toxicology using chemical structures toxicity related databases in silico

chemical protein docking and biological pathway tools The book begins with an introduction to systems pharmacology and toxicology and computational tools followed by a section exploring modelling adverse outcomes and events The second part of the book covers the discovery of protein targets and the characterisation of toxicant protein interactions Final chapters include case studies and additionally discuss interactions between phytochemicals and Western therapeutics This book will be useful for scientists involved in environmental research and risk assessment It will be a valuable resource for postgraduate students and researchers wishing to learn about key methods used in studying biological targets both from a toxicity and pharmacological activity standpoint

Island Time Jessica Swanston Baker, 2024-10-04 A close look at how wylers a popular musical style from the island of St Kitts and Nevis expresses a unique mode of relation in the postcolonial Caribbean In *Island Time* ethnomusicologist Jessica Swanston Baker examines wylers a musical form from St Kitts and Nevis that is characterized by speed Baker argues that this speed becomes a useful and highly subjective metric for measuring the relationship between Caribbean aspirations and the promises of economic modernity women s bodily autonomy and the nationalist fantasies that would seek to curb that autonomy and the material realities of Kittitian Nevisian youth living in the disillusionment following postcolonial independence She traces the wider Caribbean musical cultural and media based resonances of wylers posing an alternative model to scholarship on Caribbean music that has tended to privilege the big islands Trinidad Jamaica and Haiti thus neglecting not only the unique cultural worlds of smaller nations but also the unbounded nature of musical exchange in the region The archipelago emerges as a useful model for apprehending the relationality across scales that governs the temporal and spatial logics that undergird Caribbean performance The archipelago and its speeds ultimately emerge as a meaningful medium for postcolonial postmodern world making

Advances in Swarm Intelligence Ying Tan, Yuhui Shi, Hongwei Mo, 2013-05-13 This book and its companion volume LNCS vols 7928 and 7929 constitute the proceedings of the 4th International Conference on Swarm Intelligence ICSI 2013 held in Harbin China in June 2013 The 129 revised full papers presented were carefully reviewed and selected from 268 submissions The papers are organized in 22 cohesive sections covering all major topics of swarm intelligence research and developments The topics covered in this volume are hybrid algorithms swarm robot and multi agent systems support vector machines data mining methods system and information security intelligent control wireless sensor network scheduling and path planning image and video processing and other applications

Understanding Violence and Abuse Heather Fraser, Kate Seymour, 2020-07-10T00:00:00Z In *Understanding Violence and Abuse* Heather Fraser and Kate Seymour examine violence and abuse from an anti oppressive practice perspective and make connections between interpersonal violence and structural institutional and cultural violence Using case studies from Canada the U K the U S Australia Bangladesh India and elsewhere the authors discuss topics ranging from class oppression street violence white privilege war shame Islamophobia and abuse in intimate relationships as well as introduce the core tenets of anti oppressive social work practice They encourage readers

to reflect upon hierarchies of identity and difference in relation to the ways in which violence and abuse are defined understood and addressed Further they discuss several responses to violence using an anti oppressive framework

The Pentecostal Gender Paradox Joseph Lee

Dutko,2023-11-16 The distinct subjects of eschatology and gender equality have seen an explosion of interest in recent decades particularly within Pentecostal scholarship Pentecostalism is regarded ideally as both an eschatological and egalitarian movement However many Pentecostals have lamented the inconsistency between the early egalitarian impulse of the movement and its current restrictive practices This situation has been described as the so called Pentecostal gender paradox referring to the conflicting freedoms and limitations experienced by Pentecostal women Pentecostals have also recognized the waning eschatological fervor within the movement and its shifting eschatological convictions leading to calls to rediscover the eschatological heart of the movement Despite the renewed interest in both eschatology and women s equality little research has been done to put these two areas into conversation with each other eschatological convictions are often absent in the debate on gender roles in the church For Pentecostals eschatology has often been about urgency in saving souls rather than attending to social issues but could Pentecostal eschatology be the key to re-discovering greater equality for women in the church Is the waning of both eschatology and women s equality within Pentecostalism potentially interrelated For over one hundred years the role of women in Pentecostalism has been debated without a firm consensus By examining gender solely through an eschatological lens in history Scripture and praxis this work provides a valuable and creative contribution to one of the most important theological and global issues of our time women s in equality This book is also one of the first comprehensive studies to approach a single social issue solely through an eschatological lens and to provide attention to developing a thorough and methodologically connected eschatological praxis By uncovering the unified eschatological egalitarian narrative thread within both the Pentecostal and biblical story this work suggests that the present

end of women's inequality begins with fidelity to the future eschaton of gender equality The Treatment of Immigrants in the European Court of Human Rights Amanda Spalding, 2022-07-14 This book looks at how the European Court of Human Rights has addressed the question of immigration As immigration in Europe has increased so has its criminalisation This is a multi faceted phenomenon with criminal justice and harsh use of immigration measures becoming more and more entwined This book asks how has the European Court of Human Rights responded Drawing on case law from across the spectrum of rights it will show how effective it has been in countering detention and deportation if at all This makes an original contribution to growing focus on crimmigration
