music in early modern England Originally composed in 1611 in both English and Latin they were delivered at Gresham College in London between 1611 and 1638 and it is likely that Taverner intended at some point to publish the lectures in the form of a music treatise The lectures which Taverner collectively titled *De Ortu et Progressu Artis Music* On the Origin and Progress of the Art of Music represent a clear attempt to ground musical education in humanist study particularly in Latin and Greek philology Taverner's reliance on classical and humanist writers attests to the durability of music's association with rhetoric and philology an approach to music that is too often assigned to early Tudor England Taverner is also a noteworthy player in the seventeenth century Protestant debates over music explicitly defending music against Reformist polemicists who see music as an overly sensuous activity In this first published edition of Taverner's musical writings Joseph M Ortiz comprehensively introduces edits and annotates the text of the lectures and an appendix contains the existing Latin version of Taverner's text By shedding light on a neglected figure in English Renaissance music history this edition is a significant contribution to the study of musical thought in Renaissance England humanism Protestant Reformism and the history of education
