Het Journaal Van Abel Tasman 16421643:

Het journaal van Abel Tasman, 1642-1643 Abel Janszoon Tasman, V. D. Roeper, G. J. D. Wildeman, 2006 *To the Shores of Chile* Mark Meuwese, 2019-07-15 *To the Shores of Chile* presents the remarkable story of an expedition that took place in Latin America during the height of the Dutch Empire Skillfully translated by Mark Meuwese this captivating work sheds light on Dutch imperialism and the complicated relationships between Native peoples and European colonizers In 1643 the Dutch West India Company launched an expedition to the coast of southern Chile With plans to set up a permanent outpost that they hoped would generate enormous revenues in gold and weaken the position of their Spanish rivals a naval squadron of five vessels and six hundred and fifty soldiers sailors and craftsmen set sail under the direction of Hendrick Brouwer In the end lack of cooperation from the native Mapuche stymied the expedition However an account of the enterprise based on the journals and logbooks was published in Amsterdam in 1646 to capitalize on the public fascination with dangerous adventures of Europeans in exotic places and to serve as a political pamphlet in support of the renewal of the West India Company's charter *To the Shores of Chile* makes this account available for the first time in English and sheds light on both Dutch expansionism and the military and diplomatic power of indigenous people in South America It will be particularly valuable to ethnohistorians scholars of failed colonies and those interested in maritime and Dutch colonial history

A Draught of the South Land Paul Moon, 2024-01-01 The story of how the map of New Zealand emerged is a fascinating one The first full map of the islands was published in London in 1773 which might seem the natural starting point but over the preceding 150 years fragments of charts and intelligence about New Zealand ricocheted around various parts of the world In *A Draught of the South Land* Paul Moon provides the first comprehensive account of this piecemeal process Moon's investigation covers several continents over more than a century and reveals the personalities blunders strategic miscalculations scientific brilliance and imperial power plays that were involved Above all he examines the roles played by explorers and traders Mori and European rulers scientific societies and military groups as well as specialist cartographers and publishers At a time when maps as colonial tools enablers of trade and objects of curiosity are being studied anew his careful analysis and engaging narrative will be of interest to scholars everywhere

Navigating by the Southern Cross Kenneth Morgan, 2021-01-28 In this comprehensive study Kenneth Morgan provides an authoritative account of European exploration and discovery in Australia The book presents a detailed chronological overview of European interests in the Australian continent from initial speculations about the Great Southern Land to the major hydrographic expeditions of the 19th century In particular he analyses the early crossings of the Dutch in the 17th century the exploits of English buccaneer adventurer William Dampier the famous voyages of James Cook and Matthew Flinders and the little known French annexation of Australia in 1772 Introducing new findings and drawing on the latest in historiographical research this book situates developments in navigation nautical astronomy and cartography within the broader contexts of imperial colonial and maritime history
