Library Of Shadows Revolution Reflections France Present:

The Invisible Emperor Mark Braude, 2018-10-09 A suspenseful fast paced account Braude's prose glints with humor and humanity Seattle Times A gripping narrative history of Napoleon Bonaparte's ten month exile on the Mediterranean island of Elba In the spring of 1814 Napoleon Bonaparte was defeated Having overseen an empire spanning half the European continent and governed the lives of some eighty million people he suddenly found himself exiled to Elba less than a hundred square miles of territory This would have been the end of him if Europe's rulers had had their way But soon enough Napoleon imposed his preternatural charisma and historic ambition on both his captors and the very island itself plotting his return to France and to power After ten months of exile he escaped Elba with just over a thousand supporters in tow marched to Paris and retook the Tuileries Palace all without firing a shot Not long after tens of thousands of people would die fighting for and against him at Waterloo Braude dramatizes this strange exile and improbable escape in granular detail and with novelistic relish offering sharp new insights into a largely overlooked moment He details a terrific cast of secondary characters including Napoleon's tragically noble official British minder on Elba Neil Campbell forever disgraced for having let Boney slip away and his young second wife Marie Louise who was twenty two to Napoleon's forty four at the time of his abdication What emerges is a surprising new perspective on one of history's most consequential figures which both subverts and celebrates his legendary persona

Number One Realist Nathaniel L. Moir, 2022-04-01 In a 1965 letter to Newsweek French writer and academic Bernard Fall 1926-67 staked a claim as the Number One Realist on the Vietnam War This is the first book to study the thought of this overlooked figure one of the most important experts on counterinsurgency warfare in Indochina Nathaniel L. Moir's intellectual history analyses Fall's formative experiences his service in the French underground and army during the Second World War his father's execution by the Germans and his mother's murder in Auschwitz and his work as a research analyst at the Nuremberg Trials Moir demonstrates how these critical events shaped Fall's trenchant analysis of Viet Minh led revolutionary warfare during the French Indochina War and the early Vietnam War In the years before conventional American intervention in 1965 Fall argued that far more than anything in the United States military arsenal resolving conflict in Vietnam would require political strength willpower integrity and skill Number One Realist illuminates Fall's study of political reconciliation in Indochina while showing how his profound humanitarian critique of war continues to echo in the endless conflicts of the present It will challenge and change the way we think about the Vietnam War

lending library Lawrence Inkster,1888 *India in the Shadows of Empire* Mithi Mukherjee,2009-11-25 This book explains the postcolonial Indian polity by presenting an alternative historical narrative of the British Empire in India and India's struggle for independence It pursues this narrative along two major trajectories On the one hand it focuses on the role of imperial judicial institutions and practices in the making of both the British Empire and the anti colonial movement under the Congress with the lawyer as political leader On the other hand it offers a novel interpretation of Gandhi's non violent resistance movement as being different from the Congress It shows that the Gandhian movement as the most powerful force largely responsible for India's independence was anchored not in western discourses of political and legislative freedom but rather in Indic traditions of renunciative freedom with the renouncer as leader This volume offers a comprehensive and new reinterpretation of the Indian Constitution in the light of this historical narrative The book contends that the British colonial idea of justice and the Gandhian ethos of resistance have been the two competing and conflicting driving forces that have determined the nature and evolution of the Indian polity after independence Catalogue of books in the lending
