A History of Modern Libya Dirk Vandewalle, 2012-03-23 In the wake of the civil war and Qadhafi s demise the time is ripe for a new edition of Dirk Vandewalle s classic history of Libya The book which was originally published in 2006 traces the country s history back to the 1900s through the Italian occupation in the early twentieth century the Sanusi monarchy and thereafter to the revolution of 1969 and the accession of Qadhafi The following chapters analyse the economics and politics of Qadhafi s revolution offering insights into the man and his ideology as reflected in his Green Book The new edition covers the intervening years since 2005 when courted by the West Qadhafi came in from the cold At home though his people were disillusioned and economic liberalization came too late to forestall revolution In an epilogue the author reflects upon Qadhafi s premiership and the legacy he leaves behind

Historical Dictionary of Libya Ronald Bruce St John, 2023-03-15 Of all the countries in North Africa and the Middle East less has been known about Libya for decades Only recently have we begun to appreciate the complexity of Libya s turbulent past including the revolution in 2011 in which demands for better living conditions and more job opportunities led to widespread protests When the Muammar al Qaddafi regime responded with force to these peaceful protests killing scores of unarmed civilians the protesters called for regime change In what came to be known as the February 17 Revolution the 42 year old Qaddafi regime was overthrown and Qaddafi was killed in October 2011 Over the next decade Libya endured a series of interim transitional governments in a prolonged struggle to draft a new constitution and to elect a democratic national government Historical Dictionary of Libya Sixth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Libya

The 2011 Libyan Uprisings and the Struggle for the Post-Qadhafi Future J. Pack, 2013-06-18 The 2011 Libyan Uprisings is a thematic investigation of how pre existing social regional tribal and religious fissures influenced the trajectory of the 2011 Libyan Uprisings and an analysis of what this means for the post Qadhafi future

Libya and the Global Enduring Disorder Jason Pack, 2022-02-15 We no longer inhabit a world governed by international coordination a

unified NATO bloc or an American hegemon Traditionally the decline of one empire leads to a restoration in the balance of power via a struggle among rival systems of order Yet this dynamic is surprisingly absent today instead the superpowers have all at times sought to promote what Jason Pack terms the Enduring Disorder He contends that Libya s ongoing conflict more so than the civil wars in Yemen Syria Venezuela or Ukraine constitutes the ideal microcosm in which to identify the salient features of this new era of geopolitics The country s post Qadhafi trajectory has been molded by the stark absence of coherent international diplomacy while Libya s incremental implosion has precipitated cross border contagion further corroding global institutions and international partnership Pack draws on over two decades of research in and on Libya and Syria to highlight the Kafkaesque aspects of today s global affairs He shows how even the threats posed by the Arab Spring and the Benghazi assassination of US Ambassador J Christopher Stevens couldn t occasion a unified Western response Rather they have further undercut global collaboration demonstrating the self reinforcing nature of the progressively collapsing world order

Revolution and Authoritarianism in North Africa Frédéric Volpi, 2017-06-15 This book offers a much needed corrective to dominant approaches to understanding political causality during episodes of intense social mobilisation in North Africa Drawing on analyses of routine governance and of revolutionary mobilisation in four countries of the Maghreb Morocco Algeria Tunisia and Libya before during and after the 2011 uprisings Volpi explains the different trajectories of these uprisings by showing how specific acts of protest created new arenas of contention that provided actors with new rationales practices and ultimately identities The book illustrates how the dynamics of revolutionary episodes are characterised by the social and political de institutionalisation of routine mechanisms of authoritarian governance It also details how post uprising re institutionalisation and or conflict are shaped by reconstructed understandings of the uprisings by actors who are themselves partially the products of these episodes of phenomena

North Africa's Arab Spring George Joffé, 2013-10-18 This book addresses issues surrounding the evolution of the Arab Spring in North Africa After a general introduction and explanation of the events on a region wide basis it turns to examine aspects of each of the countries concerned The role of the Muslim Brotherhood during the Nasser regime and in the contemporary situation is compared together with an analysis of the emergence of new political parties in Egypt The book analyses the links between social media and satellite television during the revolution in Egypt This is followed by a study of the intellectual and cultural background to the Tunisian revolution and an analysis of the new political parties in Tunisia It also looks at the revolution process in Libya and concludes with a study of why there was no revolution in Algeria and how the Moroccan monarchy was able to sideline those who challenged it at the price of constitutional changes that are essentially cosmetic This book was originally published as a special issue of The Journal of North African Studies

Global NATO and the Catastrophic Failure in Libya Horace

Campbell,2013-03-01 In this incisive account scholar Horace Campbell investigates the political and economic crises of the early twenty first century through the prism of NATO s intervention in Libya He traces the origins of the conflict situates it in the broader context of the Arab Spring uprisings and explains the expanded role of a post Cold War NATO This military organization he argues is the instrument through which the capitalist class of North America and Europe seeks to impose its political will on the rest of the world however warped by the increasingly outmoded neoliberal form of capitalism The intervention in Libya characterized by bombing campaigns military information operations third party countries and private contractors exemplifies this new model Campbell points out that while political elites in the West were quick to celebrate the intervention in Libya as a success the NATO campaign caused many civilian deaths and destroyed the nation s infrastructure Furthermore the instability it unleashed in the forms of militias and terrorist groups have only begun to be reckoned with as the United States learned when its embassy was attacked and personnel including the ambassador were killed Campbell s lucid study is essential reading for anyone seeking to understand this complex and weighty course of events **NATO's**

Failure in Libya: Lessons for Africa Horace Campbell,2013-08-15 When the Tunisian and Egyptian uprisings erupted in Africa in the first two months of the year 2011 with the chant the people want to bring down the regime there was hope all over the continent that these rebellions were part of a wider African Awakening President Ben Ali of Tunisia was forced to step down and fled to Saudi Arabia Within a month of Ben Ali s departure Hosni Mubarak of Egypt was removed from power by the people who mobilised a massive revolutionary movement in the country Four days after the ousting of Mubarak sections of the Libyan people rebelled in Benghazi Within days this uprising was militarised with armed resistance countered by declarations from the Libyan leadership vowing to use raw state power to root out the rebellion The first Libyan demonstrations occurred on February 15 2011 but by February 21 there were reports that innocent civilians were in imminent danger of being massacred by the army This information was embellished by reports of the political leadership branding the rebellious forces as rats **Revolts and the Military in the Arab Spring** Sean Burns,2018-01-30 Through

detailed exploration of events in Tunisia Egypt Bahrain Libya Syria and Yemen Sean Burns here breaks down the concept of professionalism within the armed forces into its component parts and demonstrates how variation in military structures determines their behaviour In so doing and by emphasising historical context and drawing on a wide range of political science theory Burns sheds fresh light onto the ways in which military structure affects the potential for democratic transition or the course of civil war With this book he presented a wide ranging study of the Middle East which provides key tools to understanding the opportunities for democratisation both during the Arab Spring and beyond and which is therefore essential reading for anyone working on the Middle East popular uprisings and the politics of repression Violence and Social Transformation in Libya Virginie Collombier,Wolfram Lacher,2023-06-29 Ten years after Libya descended into conflict the contours of a new society are emerging How has violence remade the country what has happened to inter community and

inter personal relations to social hierarchies and elite composition Which new groups networks and identities have formed through conflict and how has this transformed power structures modes of capital accumulation and governance at the local and national levels How has the violence contributed to create new communities both inside the country and in exile This volume brings together leading researchers both foreign and Libyan to examine the deep changes undergone by Libya s society amid civil war These transformations are bound to shape the country for decades to come and will influence its relations with the outside world By addressing neglected yet crucial aspects of social change amid violence the contributors substantially broaden the picture of Libyan society beyond the current confines of scholarship as well as enriching wider debates in Conflict Studies

Tribes and the State in Libya and Iraq Alison Pargeter, 2024-03 An authoritative study of the enduring relevance of tribes in contemporary Iraq and Libya investigating their complex relationships with state and society

Eastern Europe, the Soviet Union, and Africa Chris Saunders, Helder Adegar Fonseca, Lena Dallywater, 2023-04-27 It is now widely recognised that a Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that were shaped through the movement of individuals and ideas from Africa to the East and from the East to Africa in the decades in which African countries moved to independence Adopting an interdisciplinary transregional perspective this volume casts new light on aspects of the role of Eastern Europe and the Soviet Union in the decolonisation of Africa Taking further themes explored in a collection of essays published by the editors in 2019 the twelve case studies by authors from South Africa Czech Republic Portugal Russia Hungary Italy Canada Serbia and Germany draw on new sources to explore the history of the ties that existed between African liberation movements and the socialist bloc some of which continue to influence relationships today Chapters contribute to three relevant main themes that resonate in a number of scholarly fields of inquiry ranging from Global Studies Transregional Studies Cold War Studies Global History to African Studies Eastern European Russian and Slavic Studies Reconsiderations Resources and Reverberations Drawing upon newly opened archives and combining transregional perspectives with sources in different languages chapters explicitly point out the shortcomings of past research and debates in the respective field They highlight new avenues which have been developing and which need to be further developed Reconsiderations Selected case studies address the resources of those being active and involved in decolonisation processes be it in East North West and South They reveal Which resources both material and intellectual are the actors drawing upon On the other hand From which resources are individuals on one side or the other reciprocally or intermittently intentionally kept away Resources Finally the third theme puts an emphasis on the historicity of the processes depicted Studies point to the gaps and dead ends of international support the paths that peter out but also to repercussions and reverberations up until today Reverberations Taken these three themes together the individual chapters contribute to the overall question of Which general historical narratives about the second half of the 20th century are changing based on these new research findings
