*Life of Horace Mann (Classic Reprint)* Mary Tyler Peabody Mann, 2015-07-11 Excerpt from Life of Horace Mann I dedicate this work to the Young Those who were young when Mr Mann first entered upon his educational work in Massachusetts and who are now men and women love to call themselves his children My eighty thousand children was a favorite expression of his own and those words alone expressed the sentiment he felt towards them They were to him the next generation whose culture must tell upon society for good or for evil and it was a delightful task to help them to a better one than was then enjoyed by the people at large In his later life other young people came under his direct personal influence who were old enough to love him with enthusiasm and to labor cordially to diffuse the views and purposes of life which he so earnestly inculcated upon them I know they will love to read the record of his growth of his affections and of his success and they can also sympathize with his trials If he had been less ardent he would have suspended the gigantic efforts he made for success in his last enterprise to a period when he could have obtained more co operation but his zeal in the cause blinded him to the extent of his own physical powers and he fell as by a mortal blow About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

*Horace Mann and the Common School Revival in the United States (Classic Reprint)* B. A. Hinsdale, 2017-12-23 Excerpt from Horace Mann and the Common School Revival in the United States This book aims to realize in respect to its subject the ideal of the series of volumes to which it belongs From an important point of view the history of great educators is a history of education itself Books dealing with such men when written on this plan are not only biographies but comprehensive although concise accounts of the great educational movements with which the men are identified In other words the single purpose of this book is to set before the reader Horace Mann as an educator in his historical position and relations Everything is made to bend to this central idea The work is therefore double Horace Mann and his Historical Environment It seeks primarily to tell the story of Mann's life and labors simply and clearly but in a manner to utilize some part at least of the great motive power with which his life is charged The material for the life or story proper has been drawn mainly but not exclusively from the Life and Works of Horace Mann five volumes Boston 1891 Mrs Mann's Infe which is Vol I Of the Life and Works abounds in extracts from his letters and diaries and also contains many letters and extracts from letters written to him It is to a great extent a book of original materials and its value is largely due to this fact In some parts of the present About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book
