Index to Legal Periodicals & Books ,2006      *Life, Liberty, and the Pursuit of Happiness, Version 4.0* Gordon

Anderson,2009-09 The American founders designed a Constitution for governance of the United States based on the idea that citizens are sovereign and that function of government is to protect their pursuit of life liberty and happiness This book calls the original system version 3 0 and discusses five basic political principles required for a modern government to accomplish that function These principles were either explicit or implicit at the founding However the United States has deviated from these principles over time and today the federal government is doing many of the things the Constitution sought to protect against Congress is in a position much like the programmers of a computer operating system that seek to increase the functionality of the system and to ward off attacks from viruses However not only have they passed laws that take away from the citizen s abilities to pursue life liberty and happiness they have also introduced various viruses that threaten the existence of the entire system This book describes how we can eliminate these viruses infecting the system and update the U S government to version 4 0 allowing U S citizens to pursue life liberty and happiness thereby producing a solid foundation for a strong and durable society in which all can freely prosper There are several conclusions that run against the current prevailing views The most significant conclusion involves the relationship of the government to the economy Several principles adopted as prevailing economic wisdom in both the Republican and Democratic Parties are considered harmful to the pursuit of life liberty and happiness of citizens and harmful to the society as a whole There are many books on reforming the U S government which a majority of Americans consider to be broken However there is no comprehensive systematic vision based on these core principles of government Rather most approaches are patches on symptoms produced by not adhering to these fundamental principles in the first place      **Life, Liberty and the Pursuit of Happiness** Erwin Helms,
